

Cabinet Suspension Bracket SAH 215 – 45kg Load Capacity

Variant code: 79716

Heavy-Duty Cabinet Suspension Bracket SAH 215 – 45kg Load Capacity for Secure Wall Mounting

Ensure the safe and secure wall mounting of your valuable cabinets with the **SAH 215 Heavy-Duty Cabinet Suspension Bracket**. Engineered for exceptional strength and reliability, this robust bracket boasts an impressive **45 kg load capacity**, providing peace of mind for even your heavier wall-mounted units.

Crafted from high-quality materials, the SAH 215 offers superior durability and long-lasting performance. Its intelligent design facilitates **easy and straightforward installation**, saving you time and effort. The bracket provides a **stable and level mounting solution**, preventing sagging and ensuring the longevity of your cabinets.

This versatile suspension bracket is ideal for a wide range of applications, including **kitchen cabinets, bathroom vanities, shelving units, and storage solutions** in both residential and commercial settings. Its discreet design ensures it remains largely hidden once the cabinet is installed, maintaining a clean and professional aesthetic.

Key Features & Benefits:

- **High Load Capacity:** Safely supports up to **45 kg (99 lbs)**, perfect for heavier cabinets and items.
- **Robust Construction:** Manufactured from durable materials for long-lasting strength and reliability.
- **Secure Wall Mounting:** Ensures cabinets are firmly and safely attached to the wall, preventing accidents.
- **Easy Installation:** Designed for quick and hassle-free mounting, suitable for DIY enthusiasts and professionals alike.
- **Stable and Level Support:** Prevents sagging and ensures a professional finish for your wall-mounted units.
- **Versatile Application:** Ideal for **kitchens, bathrooms, garages, offices**, and more.
- **Discreet Design:** Minimises visibility once

the cabinet is installed for a clean look.

- **Reliable Performance:** Provides dependable support for years to come.
- **Space-Saving Solution:** Perfect for maximising floor space by utilising wall mounting.
