

Clamex P-14 – 80 Pairs

Variant code: 145334

Introducing the **Clamex P-14 Connector (80 Pairs)** – the ultimate invisible, detachable, and self-clamping fitting system for furniture construction, cabinet making, and interior design. This comprehensive pack of 80 pairs provides ample connectors for large projects or multiple applications, ensuring strong, precise, and aesthetically pleasing joints every time.

Effortless Assembly, Superior Strength:

The Clamex P-14 utilises the innovative P-System anchorage, allowing for incredibly fast and tool-free installation using a simple lever clamp. This unique design eliminates the need for screws or glue in many applications, significantly reducing assembly time and labor costs. Despite its ease of use, the Clamex P-14 delivers exceptional tensile strength, making it ideal for high-stress applications and ensuring lasting durability for your furniture and fixtures.

Invisible & Detachable:

One of the key advantages of the Clamex P-14 is its virtually invisible integration into your workpieces. The connector is routed into the material, leaving only a small, elegant slot visible on the surface. This allows for clean, modern designs without compromising structural integrity. Furthermore, the detachable nature of the Clamex P-14 means that components can be assembled and disassembled repeatedly without damage, offering unparalleled flexibility for transport, modifications, and flat-pack furniture solutions.

Versatile Applications:

The Clamex P-14 is incredibly versatile and suitable for a wide range of materials, including wood, MDF, particleboard, and even solid surface materials. It's perfect for:

- **Furniture construction:** Cabinets, shelves, tables, beds, wardrobes
- **Shopfitting and interior design:** Display units, partitions, wall panels
- **Exhibition stands:** Temporary and permanent structures
- **Custom joinery projects:** Where invisible and strong connections are paramount

Key Features & Benefits:

- **80 Pairs (160 individual connectors):** Generous quantity for extensive projects.
- **Invisible connection:** Minimal visual impact for clean aesthetics.
- **Detachable and reusable:** Ideal for flat-pack designs, transport, and modifications.
- **Fast, tool-free assembly:** Significant time and labor savings.
- **High tensile strength:** Ensures durable and reliable joints.
- **Self-clamping:** Securely holds components during assembly.
- **P-System anchorage:** Revolutionary fitting technology for efficient routing.
- **Suitable for various materials:** Wood, MDF, particleboard, solid surface.
- **Angle flexibility:** Can be used for various joint angles (typically 90°, but adaptable).
- **Reduced glue usage:** Environmentally friendly and cleaner assembly.

Invest in the Clamex P-14 Connector 80-Pair pack and experience the future of furniture and cabinet construction – where strength, aesthetics, and efficiency converge.
