

CODELOCK CL100 – 50mm Replacement – Latch Only

Variant code: CL100-50-SS

Looking for a replacement latch for a CODELOCK CL100? This 50mm Latch Only is the perfect solution. It's designed specifically for the CL100 series, ensuring a perfect fit and smooth operation.

Key Features

- **Direct Replacement:** This latch is a direct, like-for-like replacement for the original 50mm latch that comes with the CODELOCK CL100 mechanical lock.
- **Durable Construction:** Built with a high-quality zinc alloy, this latch is robust and durable, providing reliable performance for years to come.
- **Easy Installation:** Designed for a simple installation, it's a quick and efficient way to repair or replace a faulty latch without needing to replace the entire lock. It's a great choice for both professionals and DIY enthusiasts.
- **Versatile Use:** Ideal for a wide range of doors, including residential and commercial applications.

Benefits for Professionals and DIYers

- **For Joiners and Carpenters:** Don't let a faulty latch hold up your project. This replacement latch offers a quick and professional fix, saving you time and money on-site. Keep a few on hand for those unexpected repairs.
- **For Businesses:** Maintain the security of your premises. Easily replace a worn-out latch on your CL100-equipped doors to ensure continued, reliable security without the high cost of a full lock replacement.
- **For Productive DIYers:** Tackle that broken lock yourself! This simple replacement part empowers you to complete a professional repair at a fraction of the cost, giving you a sense of accomplishment and a functional lock.

Why Choose This Latch?

A malfunctioning latch can compromise the security and functionality of your door. This **CODELOCK CL100 50mm Replacement Latch** is a cost-effective and reliable solution. It's a genuine, high-quality component that ensures your door operates as smoothly and securely as it did on day one.
