

Compact Lid Stay – Soft Down – Heavy Duty – Black

Variant code: CSD-10-TV-H-BL

Introducing the **Compact Soft Down Stay Heavy Duty – Black**, a premium hardware solution engineered for both performance and aesthetics. This innovative lid support mechanism is designed to provide a smooth, controlled descent for cabinet doors, toy box lids, chest lids, and more. Say goodbye to slamming doors and pinched fingers, and welcome a new era of safety, silence, and sophisticated function in your home or office.

Key Features & Benefits

- **Soft Close Technology:** Our advanced hydraulic system ensures a gentle, silent, and controlled closing motion, preventing loud slams and potential damage to your furniture. This is perfect for maintaining a peaceful environment in kitchens, nurseries, and living areas.
- **Heavy-Duty Construction:** Built with high-quality, durable materials, this stay is engineered to support substantial weight, making it ideal for heavy lids and large doors. The robust design guarantees long-lasting reliability and performance, giving you peace of mind.
- **Space-Saving, Compact Design:** The sleek, low-profile black finish blends seamlessly with any décor and takes up minimal space inside your cabinet. Its compact form factor is perfect for installations where internal clearance is a concern, without compromising on strength or functionality.
- **Adjustable Tension:** Featuring an easy-to-use adjustment screw, you can customise the closing speed and resistance to match the weight and size of your door or lid. This versatility ensures optimal performance for a wide range of applications.
- **Quick & Easy Installation:** Our comprehensive kit includes all necessary mounting hardware and clear, step-by-step instructions. You can install this soft

down stay with basic tools, making it a simple DIY project that delivers professional results.

- **Stylish Black Finish:** The modern black finish provides a clean, contemporary look that complements a variety of furniture styles, from classic to modern. It adds a touch of sophistication while providing discreet and reliable support.

Ideal Applications

- **Kitchen & Bathroom Cabinets:** Perfect for overhead cabinet doors, keeping them from slamming shut and protecting your fingers.
- **Toy Boxes & Storage Chests:** Ensures a safe and soft close, protecting little hands from being caught in heavy lids.
- **Laundry Room Hampers & Bins:** Provides a controlled descent for lids, preventing noise and extending the life of your furniture.
- **Office Furniture & Bookcases:** Adds a touch of high-end functionality to hidden compartments and doors.
- **RV & Marine Cabinets:** The compact, heavy-duty design is perfect for the demanding conditions of mobile environments.
