Cricco C3 Hidden Adjustable Plinth Foot - 65kg - 12mm ø - 70mm

Variant code: C3S12070F30

The **Cricco C3 Hidden Adjustable Plinth Foot** is a premium concealed cabinet levelling system designed to provide precise height adjustment while remaining completely hidden from view. With a **65kg load capacity** and a compact **12mm diameter** body, the Cricco C3 is ideal for high-quality cabinetry where aesthetics and accurate installation are equally important.

Mounted inside a drilled hole in the cabinet side, the Cricco C3 is completely concealed once installed and can be fully embedded into panels with a minimum thickness of **19mm**. The innovative design allows adjustment from either side of the cabinet using a standard **PH2 screwdriver**, making installation and levelling quick and convenient even after the furniture has been positioned. Available with adjustment ranges of **32mm, 52mm, 70mm, 100mm and 120mm**, the Cricco C3 offers flexibility for a wide variety of furniture applications.

Designed for professional furniture manufacturers and installers, the Cricco C3 delivers discreet levelling, reliable support and precise adjustment for premium cabinetry.
