

Double Ball Bearing Butt Hinges – 76x50mm – Bronze

Variant code: 2221.00.MBZ

These **Double Ball Bearing Butt Hinges** in a classic **bronze** finish offer exceptional durability and smooth, quiet operation for your doors. Measuring **76mm in height and 50mm in width**, these hinges are ideal for a variety of internal and external door applications.

Key Features and Benefits:

- **Durable Construction:** Crafted from robust materials with a beautiful and resilient **bronze** finish, these butt hinges are built to withstand the rigours of daily use. Their sturdy construction ensures long-lasting performance and reliability.
- **Corrosion Resistance:** The **bronze** finish not only adds an elegant touch but also provides excellent resistance to corrosion and rust, making these hinges suitable for both interior and sheltered exterior applications.
- **Standard Size (76x50mm):** With dimensions of 76mm (height) x 50mm (width), these hinges are a versatile size suitable for many standard door frames and door thicknesses. Please ensure these measurements are compatible with your specific requirements.
- **Enhanced Stability:** The robust design and double ball bearing system contribute to enhanced door stability, preventing sagging and ensuring proper alignment.
- **Easy Installation:** These butt hinges are designed for straightforward installation using standard screws (not included). Their traditional butt hinge design makes them a direct replacement for many existing hinges.
- **Elegant Bronze Finish:** The rich **bronze** colour adds a touch of traditional elegance and sophistication to your doors, complementing a variety of design styles.
- **Sold as a Pair:** Each purchase includes a pair of hinges, allowing you to properly hang one standard door.

Ideal For:

- Internal doors
- External doors (under porch or sheltered areas)
- Residential use
- Light commercial use
- Replacement hinges
- New door installations

Upgrade your doors with these premium **Double Ball Bearing Butt Hinges** in a stylish **bronze** finish for reliable, smooth, and long-lasting performance.
