

Euro Profile Cylinder – 6 Pin – 35mm (Key) / 35mm (Turn) – Open – Key to Differ – Antique Brass

Variant code: CYF7137OAB

Euro Profile Cylinder – 6 Pin – 35mm (Key) / 35mm (Turn) – Open – Key to Differ – Antique Brass

Enhance your door security and elevate your home's aesthetic with our premium Euro Profile Cylinder, featuring a convenient thumb turn for effortless internal operation and a classic **Antique Brass** finish. This high-quality 6-pin cylinder offers reliable security for a wide range of doors, from residential entrances to commercial interiors.

Key Features & Benefits:

- **Robust 6-Pin Security:** Engineered with a precision 6-pin mechanism, this cylinder provides enhanced resistance against picking and manipulation, offering superior **door security** and peace of mind.
- **Convenient Keyed Exterior, Thumbturn Interior:** The **35mm key side** allows for secure external access, while the **35mm thumbturn side** provides quick and easy egress from within without the need for a key. Ideal for fire safety and everyday convenience.
- **"Open" Functionality:** This cylinder is designed with an "open" function, meaning it can be operated by the thumbturn even when a key is inserted on the outside. This feature is particularly useful in situations where quick exit is paramount.
- **Key to Differ (KD):** Each cylinder is supplied with its own unique set of keys, ensuring that your **door lock** is individual and secure. Perfect for new installations or replacing existing cylinders where independent keying is required.
- **Elegant Antique Brass Finish:** The stunning **Antique Brass** finish offers a timeless and sophisticated look, perfectly complementing both traditional and

contemporary door hardware. It's a durable and attractive choice that resists tarnishing.

- **Durable & Long-Lasting:** Constructed from high-quality materials, this **Euro cylinder** is built to withstand daily use and provide long-term reliability.
- **Easy Installation:** Designed for straightforward fitting into standard **Euro profile lock** cases, making it an ideal choice for **door lock replacement** or new door installations.
- **Versatile Application:** Suitable for a variety of doors including **front doors**, **back doors**, **patio doors**, and internal doors requiring enhanced security and convenient operation.
