

Euro Profile Cylinder & Turn – 35mm (Key) – 35mm (Turn) Restricted Master Suite – all key to differ – Antique Brass

Variant code: CYF77370AB

Secure Your Property with Timeless Style: The Euro Profile Cylinder & Turn – 35/35mm Restricted Master Suite in Antique Brass

Uncompromised Security Meets Elegant Design

Upgrade your door's security and aesthetics with our premium **Euro Profile Cylinder & Turn** in a stunning **Antique Brass** finish. This isn't just a lock; it's a security solution designed for peace of mind, combining robust engineering with a classic look that complements any home or business.

Key Features for Superior Protection:

- **Restricted Master Suite:** Experience unparalleled security with a unique **restricted master key system**. Each cylinder is keyed to differ, meaning individual keys will only open their designated lock, preventing unauthorised duplication. The master key provides convenient access for management, perfect for apartments, offices, or properties with multiple doors.
- **Optimal 35mm / 35mm Sizing:** Designed to fit a wide range of doors, this **35/35mm** cylinder (35mm from the key side and 35mm from the turn side to the central cam screw) ensures a flush, professional installation. Always measure your existing cylinder for a perfect fit.
- **Effortless & Secure Operation:** The **turn knob** on the inside allows for quick and easy locking and unlocking without a key, providing convenience and a fast escape route in an emergency. The key side offers a smooth, reliable mechanism for external access.
- **Durable & Stylish Antique Brass Finish:**

More than just a functional component, this cylinder is a statement piece. The **Antique Brass** finish is not only visually appealing but also highly durable, resisting corrosion and tarnishing for a long-lasting, sophisticated look.

- **Anti-Drill & Anti-Pick Technology:** Engineered with advanced security features to deter common forced entry techniques, giving you an extra layer of protection against burglary.
