Precision Window Espagnolette Handle – Diamond Mesh – Locking – Right Handed – Antique Brass

Experience the perfect blend of classic elegance and modern security with our Precision Window Espagnolette Handle in an exquisite Antique Brass finish.

This meticulously crafted right-handed espagnolette handle is designed to elevate the aesthetic of any window while providing robust locking functionality. The distinctive diamond mesh detailing on the handle adds a touch of timeless sophistication, making it an ideal choice for traditional, period, and even contemporary interiors seeking a touch of vintage charm.

Key Features & Benefits for Enhanced Security & Style:

- **Secure Locking Mechanism:** Integrated key-locking functionality offers superior security for your windows, providing peace of mind against intruders and ensuring the safety of your home. Each handle comes supplied with two keys.
- **Elegant Diamond Mesh Design:** The unique diamond mesh pattern etched into the handle provides a sophisticated visual texture and a comfortable, tactile grip. This intricate detailing sets it apart from standard window handles, adding significant character.
- **Premium Antique Brass Finish:** The beautiful Antique Brass unlacquered finish develops a rich, natural patina over time, enhancing its authentic vintage appeal. This durable finish is not only stunning but also resistant to corrosion, ensuring long-lasting beauty and performance.

- **Right-Handed Configuration:** Specifically designed for right-handed window operation, ensuring smooth and effortless opening and closing. (Please check your window's handing before purchase).
- **Precision Engineering:** Manufactured to exacting standards, this espagnolette handle offers smooth, reliable operation and a high level of durability. Its solid construction ensures it will withstand the rigors of daily use for years to come.
- **Versatile Application:** Ideal for a wide range of windows including uPVC, timber, and aluminium frames, compatible with most espagnolette locking systems. Perfect for casement windows in residential and commercial properties.
- **Easy Installation:** Designed for straightforward fitting, allowing for a hassle-free upgrade or replacement. (Fixing screws are typically supplied separately, please check packaging for specifics).
- **Enhances Property Value:** Upgrading your window hardware with such a high-quality and aesthetically pleasing handle can significantly contribute to the overall appeal and perceived value of your home.
