

Hawa Bottom Floor Guide Channel – pre-drilled – 20mm x 20mm Anodized Aluminum – 3000mm

Variant code: 14415-3000

Hawa Bottom Floor Guide Channel – Pre-Drilled – 20mm x 20mm Anodized Aluminium – 3000mm

Streamline Your Sliding Door Systems with Premium Quality and Effortless Installation

Enhance the functionality and aesthetic appeal of your sliding door installations with the Hawa Bottom Floor Guide Channel. Meticulously engineered for precision and durability, this pre-drilled, 20mm x 20mm anodized aluminium channel, measuring a generous 3000mm, is the ultimate solution for ensuring smooth, stable, and quiet operation of your sliding doors.

Unmatched Quality for Superior Performance:

Crafted from high-grade anodised aluminium, this Hawa floor guide channel offers exceptional resistance to corrosion, wear, and impact. The anodized finish not only provides a sleek, modern look but also significantly extends the product's lifespan, making it ideal for both residential and commercial applications. Its robust construction guarantees long-term reliability, preventing door sway and ensuring consistent alignment.

Effortless Installation with Pre-Drilled Precision:

Save valuable time and effort on your projects thanks to the pre-drilled design of this Hawa guide channel. The precisely positioned holes ensure quick and accurate mounting, eliminating the need for on-site drilling and reducing installation errors. This feature is particularly beneficial for professionals seeking to optimize efficiency and for DIY enthusiasts desiring a hassle-free setup.

Key Features & Benefits:

- **Premium Anodized Aluminum:** Superior corrosion resistance, enhanced durability, and a sleek, modern aesthetic.

- **Optimal Dimensions (20mm x 20mm):** Perfectly sized for a wide range of sliding door applications, offering discreet yet effective guidance.
- **Generous 3000mm Length:** Provides ample material for various door widths, minimising the need for multiple sections and creating a seamless finish.
- **Pre-Drilled for Easy Installation:** Saves time and effort, ensuring quick, accurate, and secure mounting.
- **Enhanced Door Stability:** Eliminates door wobble and sway, promoting smooth and quiet sliding operation.
- **Versatile Application:** Ideal for wardrobe doors, room dividers, pocket doors, and various custom sliding systems.
- **Professional Finish:** Contributes to a clean, minimalist look for any interior design.
- **Long-Lasting Performance:** Engineered for years of reliable, maintenance-free use.
- **Hawa Quality Assurance:** Trust in the renowned engineering and manufacturing excellence of Hawa, a global leader in sliding hardware systems.

Ideal For:

- Sliding Wardrobe Doors
- Room Dividers
- Pocket Doors
- Custom Furniture Applications
- Commercial & Residential Projects
- Professional Installers
