Variant code: 24171

**Hawa Concepta II – Connector Connecting
Profile – Bottom Right / Top Left – 500mm,
Anodized Aluminium**

Unlock Seamless Design & Effortless Functionality

The Hawa Concepta II Connector Connecting Profile is an essential component for achieving the hallmark concealed sliding and pivot door solutions that the Hawa Concepta II system is renowned for. Specifically designed for **bottom right** and **top left** applications, this 500mm (1' 7 11/16") profile, crafted from high-quality **anodized aluminium**, ensures a precise and robust connection within your cabinetry or furniture designs.

Experience the Hawa Concepta II Advantage:

The Hawa Concepta II system redefines space utilisation, allowing doors to disappear seamlessly into furniture fronts, creating clean lines and maximizing usable space. This connecting profile is crucial for the smooth and reliable operation of your Hawa Concepta II door system, whether you're creating a discreet kitchen pantry, a versatile home office workstation, or an elegant media unit.

Key Features & Benefits:

- **Precision Engineered:** Manufactured to exacting Hawa standards, this connecting profile guarantees a perfect fit and long-lasting performance for your Hawa Concepta II system.
- **Durable Anodized Aluminum:** The **anodized aluminium** construction provides exceptional strength, corrosion resistance, and a sleek, modern aesthetic. This finish also enhances durability, ensuring the profile withstands daily wear and tear.

- **Versatile Application:** Designed for both **bottom right and top left installations**, offering flexibility in your design and simplifying ordering.
- **Optimal Length:** At 500mm (1' 7 11/16"), this profile is ideally sized for various common cabinet and furniture dimensions, minimising waste and simplifying installation.
- **Seamless Integration:** Works in perfect harmony with other Hawa Concepta II components, including pivots, guides, and runners, to create a smooth and silent door movement.
- **Enhanced Stability:** Provides critical structural support and alignment for the sliding and pivoting mechanism of your Hawa Concepta II doors.
- **Concealed Hardware Solution:** Supports the core principle of the Hawa Concepta II system by contributing to a minimalist and aesthetically pleasing appearance with no visible hardware when doors are closed.

Ideal For:

- **Concealed Door Systems**
- **Pivot Sliding Doors**
- **Pocket Doors**
- **Wardrobe Systems**
- **Kitchen Cabinetry**
- **Living Room Furniture**
- **Office Furniture**
- **Space-Saving Solutions**
- **High-End Furniture Design**
- **Modern Interiors**
