

Hawa Concepta II – Exterior Connector – Bottom Left / Top Right – 645mm (2'1 13/32"), Aluminum, Anodized

Variant code: 24027

Introducing the **Hawa Concepta II Exterior Connector**, meticulously engineered for seamless integration with your Hawa Concepta II pocket door systems. This specific connector, designed for **Bottom Left / Top Right** applications, boasts a precise length of **645mm (2'1 13/32")** and is crafted from premium **aluminium with an anodized finish**.

Elevate Your Space with Unrivalled Design and Functionality:

The Hawa Concepta II system is renowned for its innovative ability to transform rooms by allowing doors to pivot out and slide smoothly into a cavity, creating a clean, unencumbered aesthetic. This exterior connector is a crucial component in achieving that flawless movement and sophisticated look.

Key Features & Benefits:

- **Optimised for Hawa Concepta II:** Specifically designed to integrate perfectly with Hawa Concepta II hardware, ensuring precise alignment and optimal performance for your pocket door system.
- **Versatile Orientation (Bottom Left / Top Right):** Engineered for specific installation points, providing the necessary support and guiding mechanism for the door's effortless pivot and slide motion.
- **Precision Engineered 645mm Length:** At 2'1 13/32", this exact measurement guarantees a perfect fit within the specified Hawa Concepta II configurations, minimising installation complexities and maximising system efficiency.
- **Durable Aluminium Construction:** Constructed from high-quality aluminium, offering exceptional strength-to-weight ratio, ensuring long-lasting durability and resistance to wear and tear.
- **Elegant Anodized Finish:** The anodized

surface not only enhances the aesthetic appeal with a sleek, modern look but also provides superior corrosion resistance, protecting the connector from environmental factors and maintaining its pristine appearance over time.

- **Smooth & Silent Operation:** Contributes to the Hawa Concepta II's characteristic smooth and silent door movement, enhancing the user experience and maintaining the tranquility of your space.
- **Concealed Hardware Solution:** Designed to be an integral part of a system that allows doors to disappear into walls, offering a clean, minimalist design solution for contemporary interiors.

Ideal for:

- Kitchens with integrated appliance doors
- Home offices requiring flexible space division
- Living areas seeking minimalist aesthetics
- Commercial spaces demanding smart spatial solutions
- Custom cabinetry and furniture projects

Invest in the **Hawa Concepta II Exterior Connector** for a truly refined and functional pocket door experience. Its robust construction, precise engineering, and elegant finish make it an indispensable component for achieving sophisticated and space-optimising designs.
