

Hawa Concepta II – Folding – Concealed Centre Hinge – Steel – Dull Nickel Finish – 3 Pieces

Variant code: 24088

Hawa Concepta II Folding & Concealed Centre Hinge – Dull Nickel Finish

Unlock the potential of your living and working spaces with the Hawa Concepta II Folding and Concealed Centre Hinge system. This innovative 3-piece set, crafted from durable steel with a sophisticated dull nickel finish, is a key component of the renowned Hawa Concepta and Hawa Folding Concepta fittings. Designed for bi-folding cabinet pocket doors, it allows you to completely conceal doors, creating seamless, flush cabinet fronts and maximising your accessible space.

Key Features & Benefits:

- **Seamless Concealment:** The Hawa Concepta II hinge allows bi-folding doors to fold and pivot effortlessly into a hidden pocket, leaving the cabinet front completely flush when closed. This creates a clean, minimalist aesthetic, perfect for modern interior design, from kitchen pantries to hidden home offices and walk-in closets.
- **Smooth & Silent Operation:** Engineered with precision, this concealed centre hinge ensures a smooth, quiet, and reliable folding motion. When used with the full Hawa Concepta system, it can include a soft-closing mechanism for enhanced comfort and protection against slamming.
- **Robust & Durable Construction:** Made from high-quality steel with a dull nickel finish, this hinge is built to last. It provides the strength and stability required for large and heavy doors, with the Hawa Concepta system supporting door weights up to 50kg per door.
- **Versatile Application:** Ideal for both residential and commercial projects, the Hawa Concepta II system is a versatile solution for concealing appliances in kitchens, creating multi-functional spaces like a work-from-home area in a

living room, or building large, room-high designs without a need for a cabinet base.

- **Easy to Integrate:** This 3-piece concealed hinge set is a vital part of the Hawa Concepta system, designed for straightforward installation and front-side adjustments. It simplifies the assembly process and ensures a perfect, uniform gap pattern across your cabinet fronts.

Technical Specifications:

- **Product:** Concealed Centre Hinge
- **System Compatibility:** Hawa Concepta and Hawa Folding Concepta II
- **Material:** Steel
- **Finish:** Dull Nickel
- **Pieces:** 3
- **Function:** Folding & Pivoting for concealed pocket doors
- **Recommended Use:** Bi-folding cabinet doors, furniture fronts, room partitions
- **Note:** This product is a component of a larger system. For full functionality, it must be used with other Hawa Concepta fittings. Consult the Hawa Concepta technical specifications for door weight, width, and height limitations.

Transform your space with the Hawa Concepta II. Achieve a sleek, uncluttered look and enjoy the convenience of a fully accessible cabinet with doors that simply disappear.
