

Hawa Concepta II – Folding – Exterior Connector – Bottom Right / Top Left – 645mm (2'1 13/32"), Aluminum, Anodized

Variant code: 24028

Hawa Concepta II – Folding – Exterior Connector – Bottom Right / Top Left – 645mm (2'1 13/32"), Aluminum, Anodized – Matt Black

Unleash the full potential of your living and working spaces with the Hawa Concepta II Folding Exterior Connector. This precision-engineered component is a crucial part of the revolutionary Hawa Concepta II system, designed to create seamless, functional, and aesthetically striking cabinet and room solutions.

Key Features & Benefits:

- **Invisible Functionality:** The Hawa Concepta II system allows doors to fold and then pivot smoothly into a discreet pocket, completely concealing them when open. This exterior connector is essential for achieving this flush, minimalist look, providing uninterrupted access to your cabinet contents or transforming your space with a clean, unhindered flow.
- **Versatile Handling:** This specific connector is designed for **Bottom Right / Top Left** applications, offering flexibility for various door configurations. Whether you're setting up a left-hand or right-hand opening system, this component is key to the smooth operation of your folding doors.
- **Premium Construction:** Crafted from high-quality **Aluminium** and finished with a sophisticated **Anodized – Matt Black** coating, this connector not only ensures exceptional durability and corrosion resistance but also adds a touch of modern elegance to any interior design. The sleek matt black finish integrates seamlessly with contemporary aesthetics.
- **Optimised Dimensions:** Measuring

645mm (2'1 13/32") in length, this exterior connector is precisely sized for optimal performance within the Hawa Concepta II folding system. It plays a vital role in guiding the folding doors with precision and stability.

- **Seamless Integration:** Designed to work in conjunction with other Hawa Concepta II components, this exterior connector facilitates a smooth and reliable folding and sliding motion. It contributes to the system's ability to create flush cabinet fronts that disappear entirely when opened.
- **Enhanced Space Utilisation:** Ideal for kitchens, home offices, living rooms, and commercial spaces, the Hawa Concepta II system, incorporating this connector, helps to maximize usable space by eliminating protruding doors.
- **Effortless Operation:** Experience the renowned Hawa smooth gliding and soft-closing mechanisms, providing a luxurious feel and quiet operation. The robust design ensures long-lasting, trouble-free performance.

Technical Specifications:

- **Product Type:** Folding Exterior Connector
- **System:** Hawa Concepta II
- **Handing:** Bottom Right / Top Left
- **Length:** 645mm (2'1 13/32")
- **Material:** Aluminium
- **Finish:** Anodized – Matt Black
- **Application:** Essential component for Hawa Concepta II folding and pivot sliding door systems

Elevate your interior design with the sophisticated engineering and seamless aesthetics of the Hawa Concepta II. This Matt Black Aluminum Exterior Connector is a vital element in achieving a truly hidden door solution, transforming your cabinets and living areas into models of modern efficiency and style.
