

Hawa Concepta II – Interior Connector – Bottom Left – 645mm (2'1 13/32") – Aluminum, Anodized

Variant code: 24021

Hawa Concepta II – Interior Connector – Bottom Left – 645mm (2'1 13/32") – Aluminum, Anodized

Seamless Integration, Effortless Operation: The Hawa Concepta II Interior Connector

Revolutionise your furniture design with the Hawa Concepta II Interior Connector, an essential component for creating innovative slide-in pocket door systems. This bottom-left connector, meticulously crafted from anodized aluminum, is designed to provide smooth, reliable, and aesthetically pleasing operation for doors up to 645mm (2'1 13/32") in height.

Key Features & Benefits for Modern Interiors:

- **Optimised for Slide-In Pocket Doors:**
The Hawa Concepta II system is renowned for its ability to discreetly conceal doors within furniture or wall cavities, maximising usable space and maintaining clean, minimalist lines. This bottom-left connector is integral to achieving this sophisticated functionality.
- **Precision Engineered for Smooth Movement:** Experience unparalleled ease of use. The Hawa Concepta II's advanced mechanism, supported by this high-quality connector, ensures doors glide effortlessly into and out of their pockets, eliminating jarring movements and promoting quiet operation.
- **Durable Anodized Aluminum Construction:** Built to last, this connector is manufactured from robust aluminium with an anodized finish. This not only provides exceptional resistance to corrosion, wear, and scratches but also offers a sleek, contemporary aesthetic that complements any modern interior.
- **Designed for Bottom-Left Application:** Specifically engineered for the bottom-left side of your pocket door system,

ensuring precise alignment and optimal performance within the Hawa Concepta II framework.

- **Ideal for Doors up to 645mm (2'1 13/32"):** This connector is perfectly suited for a wide range of furniture applications, from media units and kitchen cabinets to wardrobe systems and office storage, accommodating door heights up to 645mm.
- **Space-Saving Solution:** By allowing doors to disappear completely, the Hawa Concepta II system, facilitated by this connector, frees up valuable floor space and eliminates the obstruction of traditional swinging doors.
- **Enhanced Design Flexibility:** Create custom furniture pieces with hidden compartments, seamless room dividers, or multi-functional spaces that adapt to your needs. The Hawa Concepta II empowers designers and manufacturers with unparalleled creative freedom.
- **Easy Installation:** Designed for straightforward integration into the Hawa Concepta II hardware system, reducing installation time and complexity for professionals.

Technical Specifications:

- **Product Type:** Interior Connector
- **Compatibility:** Hawa Concepta II Slide-In Pocket Door System
- **Orientation:** Bottom Left
- **Max. Door Height:** 645mm (2'1 13/32")
- **Material:** Aluminium, Anodized
- **Finish:** Anodized (Silver/Natural Aluminium appearance)
- **Application:** Furniture, Cabinets, Wardrobes, Room Dividers, Office Storage

Elevate your furniture projects with the Hawa Concepta II Interior Connector – where innovative design meets exceptional functionality.
