

Hawa Concepta II – Scissor Action, Complete – 900mm (2' 11 7/16") – Steel, Zinc-Plated

Variant code: 24087

Hawa Concepta II – Scissor Action, Complete – 900mm (2' 11 7/16") – Steel, Zinc-Plated

A revolutionary hardware solution for flush-fitting pivot and slide-in cabinet doors. The ultimate in space-saving design.

Product Description:

Transform your living spaces with the Hawa Concepta II – a premium scissor-action hardware system designed to bring a new level of functionality and elegance to your cabinetry. This complete set, engineered for a 900mm (2' 11 7/16") cabinet width, allows you to create seamless, flush-fitting cabinet fronts that pivot and then slide effortlessly into a narrow cavity within the furniture. Say goodbye to protruding doors and hello to a minimalist, clutter-free aesthetic.

Key Features & Benefits:

- **Scissor Action Mechanism:** The innovative scissor action allows the door to pivot out from the cabinet body and then smoothly slide into a side pocket. This intelligent movement requires minimal space, making it perfect for walk-in closets, kitchenettes, media units, and office furniture where every inch counts.
- **Flush-Fitting Design:** When closed, the cabinet door sits perfectly flush with the surrounding furniture, creating a clean, modern look. This "zero-gap" design is a key feature of high-end, contemporary interiors.
- **Complete Set:** This product is a comprehensive hardware solution, including all the components you need for a single door installation. It simplifies the ordering process and ensures compatibility, saving you time and effort.
- **Robust Construction:** Manufactured from high-quality steel with a durable zinc-plated finish, this system is built for long-term reliability and heavy-duty use.

The robust construction ensures smooth, stable operation for years to come.

- **Versatile Applications:** Ideal for a wide range of applications, including:
 - **Kitchens:** Conceal small appliances or a complete cooking area with a "secret" door.
 - **Living Rooms:** Hide a television or media center for a clean look when not in use.
 - **Offices:** Create a tidy, organized workspace by concealing desks or storage.
 - **Bedrooms:** Build stylish walk-in wardrobes or hide away dressing tables.
 - **Commercial Spaces:** Perfect for sleek reception areas, showrooms, and retail displays.
- **Effortless Operation:** The sophisticated mechanism ensures a light and smooth motion, allowing for easy, single-handed operation.
- **Made in Switzerland:** The Hawa Concepta II is a testament to Swiss engineering and precision. You can trust in its quality, durability, and flawless performance.
