

Hawa Junior 100 B Pocket – 20mm Long Suspension Bolts & 2 Soft Close – for 1 Door

Variant code: 30266

HAWA Junior 100 B Pocket Sliding Door System – Effortless & Space-Saving

Transform your space with the **HAWA Junior 100 B Pocket** sliding door system. This innovative and discreet solution allows a single door to effortlessly disappear into a wall cavity, maximising your floor space and creating a clean, modern aesthetic. Perfect for en-suites, walk-in closets, pantries, or any room where a traditional swing door is impractical, this system delivers a smooth, quiet, and reliable performance.

Key Features:

- **Pocket Door System:** The ultimate space-saving solution, allowing your door to slide discreetly into a wall pocket, freeing up valuable floor area.
- **Heavy-Duty Performance:** Designed for a single door weighing up to 100 kg (220 lbs), ensuring reliable operation for a wide range of door materials, including solid wood and glass.
- **Advanced Soft Close Technology:** Featuring two integrated **soft close** mechanisms, this system gently and silently brakes the door at both the opening and closing points. Say goodbye to slamming doors and hello to a peaceful environment.
- **Easy Installation:** Comes with **20mm long suspension bolts**, making installation straightforward and secure. The system is designed for quick and efficient fitting, whether you're a professional tradesperson or a DIY enthusiast.
- **Premium Quality & Durability:** Engineered in Switzerland, the HAWA Junior 100 B is built with high-quality materials to provide exceptional longevity and maintenance-free operation.

Experience the perfect blend of functionality, quality, and design with the HAWA Junior 100 B

Pocket system. It's more than just a door; it's an intelligent solution for modern living.

Please note: The wall cavity and frame are sold separately.
