

Hawa Junior 120 GP Pocket Set – 1 glass Door – 120kg

Variant code: 25909

Hawa Junior 120 GP Pocket Set – 1 Glass Door – 120kg – A Masterclass in Space-Saving Design

Unlock a new dimension of interior design and functionality for your clients with the Hawa Junior 120 GP Pocket Set. This is not just a hardware kit; it's a solution for modern living, a testament to precision engineering, and an essential tool for joiners, carpenters, and design professionals who demand the best.

Product Highlights:

- **Unrivaled Weight Capacity:** Effortlessly supports a single glass door weighing up to 120kg (264 lbs), making it ideal for heavy, contemporary glass panels that create a seamless flow between rooms.
- **Concealed Elegance:** The "pocket" design allows the door to slide completely into a wall cavity, disappearing from view when open. This maximises floor space and creates an uncluttered, minimalist aesthetic that is highly sought after by architects and interior designers.
- **Smooth, Silent Operation:** The Swiss-engineered running gear, featuring high-quality ball bearings, ensures a whisper-quiet, frictionless glide. Your clients will appreciate the sense of quality and the absence of jarring noise.
- **Precision Adjustment:** The easy-to-use, integrated height and lateral adjustment mechanisms allow for a perfect fit and finish, even in non-standard openings. This saves you valuable installation time and ensures a flawless result every time.
- **Durable & Dependable:** Constructed from premium-grade materials, this set is built to last. The robust track and trolley system are designed for years of reliable,

heavy-duty use, guaranteeing client satisfaction and minimising call-backs.

- **Versatile Application:** Perfect for creating stunning, space-saving entrances to bathrooms, walk-in closets, studies, and kitchens. It's also an excellent solution for dividing open-plan living areas without the bulk of traditional swinging doors.

Why Choose the Hawa Junior 120 GP Pocket Set?

As a professional, you know that the quality of the hardware you use directly reflects on your craftsmanship. The Hawa Junior 120 GP Pocket Set is more than a component; it's a statement of quality and a commitment to delivering superior results.

- **For Joiners & Carpenters:** This kit is designed for straightforward installation, reducing labour time and ensuring a perfect fit. The clear instructions and intelligent design mean less hassle and more profit on every job. The quality of the Hawa brand is recognised worldwide, adding a prestigious touch to your work.
- **For Builders & Developers:** Offer a premium feature that sets your properties apart. Pocket doors are a key selling point in modern homes, signaling intelligent design and efficient use of space. The Hawa Junior 120 GP offers a durable, high-end solution that adds tangible value to your projects.
- **For Interior Designers & Architects:** Bring your vision to life with this elegant and functional hardware. The Hawa Junior 120 GP provides a clean, minimalist solution that allows light to flow freely, creating an open and airy feel. Specify with confidence, knowing you are recommending a product of unparalleled quality.
