

Hawa Multifold 30 – Bottom Stop Bumper

Variant code: 14957

Silence of the slams, Secure the Smooth:

Genuine Hawa Multifold 30 Bottom Stop Bumper. This essential component is specifically designed for the Hawa Multifold 30 hardware, providing a reliable stopping point for the bottom edge of your folding door panels.

Crafted from durable, high-quality materials, the **bottom stop bumper** effectively cushions the impact as the door panel reaches its closed position. This prevents jarring, reduces noise, and protects both the door panel and the surrounding frame from potential damage over time. Its precise design ensures accurate alignment of the folded panels, contributing to the overall aesthetic and functionality of your door system.

Installation is straightforward, seamlessly integrating with the existing Hawa Multifold 30 bottom track. The **Hawa bottom stop** is a crucial element for maintaining the longevity and optimal performance of your **multifold door system**. By providing a defined stopping point, it helps to prevent excessive stress on other hardware components, ensuring years of reliable use.

Key Features:

- **Genuine Hawa Product:** Ensures perfect compatibility and reliable performance with Hawa Multifold 30 systems.
- **Bottom Stop Functionality:** Provides a defined stopping point for the bottom edge of folding door panels.
- **Impact Cushioning:** Reduces noise and prevents damage to door panels and frames.
- **Durable Construction:** Made from high-quality materials for long-lasting performance.
- **Ensures Proper Alignment:** Contributes to the neat and secure folding of door panels.
- **Easy Installation:** Designed for seamless integration with the Hawa Multifold 30 bottom track.
- **Protects Hardware:** Helps to minimise stress on other components of the folding door system.
