Hawa Porta 100 GW End Caps for Angle Profile & Running Track – Plastic Anthracite

Crafted from durable, high-quality plastic and finished in a sophisticated anthracite colour, these end caps are the perfect finishing touch for your Hawa Porta 100 GW sliding door installations. Designed specifically to fit the angle profile and running track, they provide a clean, professional, and seamless look while protecting the track's ends from dust, debris, and potential damage.

Key Features & Benefits:

- **Premium Quality & Durability:** Made from robust, resilient plastic, these end caps are built to last. They resist wear and tear, ensuring long-term performance and maintaining their sleek appearance even in high-traffic areas.
- **Aesthetically Pleasing:** The elegant anthracite finish adds a modern, minimalist touch to any interior design. It perfectly complements the Hawa Porta 100 GW system, creating a cohesive and polished look that enhances the overall appeal of your space.
- **Perfect Fit:** Engineered specifically for the Hawa Porta 100 GW angle profile and running track, these end caps ensure a snug and secure fit. Their precise design makes installation quick and easy, with no need for specialised tools.
- **Enhanced Safety & Protection:** By capping the ends of the running track, these components prevent the accumulation of dust and debris, which can interfere with the smooth operation of the sliding mechanism. They also cover sharp edges, reducing the risk of injury.
- **Versatile Application:** Ideal for a wide range of applications, including

residential homes, commercial offices, hotels, and retail spaces. These end caps are essential for any Hawa Porta 100 GW installation where a clean, finished appearance is desired.
