Hawa Sliding Door Hardware - Concepta III - Connector to Cabinet - Top Only

Variant code: 31430

HAWA Sliding Door Hardware - Concepta III - Connector to Cabinet - Top Only

Transform Spaces with Seamless, Concealed Sliding Door Technology

As a professional joiner, carpenter, or cabinetmaker, you understand that the smallest details can make the biggest difference in a project. The Hawa Concepta III system is the key to creating stunning, multifunctional spaces that adapt to modern living. The **Hawa Concepta III - Connector to Cabinet - Top Only** is a crucial component of this award-winning hardware family, designed to streamline your installation process and deliver a flawless, high-end finish.

Unmatched Productivity and Ease of Installation

The Hawa Concepta III system has been re-engineered with your efficiency in mind. This top connector profile plays a vital role in simplifying complex installations. With its high degree of pre-assembly and intuitive design, you can achieve perfect results with fewer tools and less time on site. The connector profile slides effortlessly into the running and guide tracks, compensating for minor height deviations in cabinet side panels to ensure a perfect, flush fit every time. This means you can focus on the craftsmanship of your cabinet and doors, confident that the hardware will perform flawlessly.

Elevate Your Craftsmanship with Invisible Technology

The true beauty of the Hawa Concepta III lies in its ability to disappear. This top connector is a key part of the system that allows for the creation of completely concealed pivot and slide-in doors. Whether you are building a custom kitchen that hides a working pantry, a sophisticated home office that vanishes into a wall, or a seamless wardrobe, the technology remains invisible when the doors are closed. This allows for a clean, uniform, and handle-free front design, providing your clients with the elegant, minimalist aesthetic they desire.

Key Features and Benefits:

- **Effortless Installation:** High degree of pre-assembly and intuitive adjustment points save you valuable time and labour.
- **Precision Engineering:** Compensates for slight variations in cabinet construction, ensuring a perfect fit and smooth operation.
- **Invisible Functionality:** Allows for the creation of stunning, handle-less designs where the hardware is completely hidden.
- **Seamless Integration:** A vital part of the Hawa Concepta III system for creating versatile, adaptable living spaces.
- **Durable and Reliable:** Built to Hawa's rigorous standards, this component ensures the long-term performance and maintenance-free operation of your installation.

Perfect for High-End Commercial & Residential Projects

The Hawa Concepta III is the ideal solution for joiners and cabinetmakers specialising in high-end projects. This system is perfect for **pivot sliding doors**, **pocket door systems**, and **folding sliding doors** in a variety of applications, including:

- **Kitchens:** Conceal entire work surfaces or small appliance stations.
- **Home Offices:** Create a minimalist, uncluttered look by hiding desks and storage.
- **Wardrobes:** Offer a clean, streamlined
