Heavy Duty Tubular Deadbolt with 5mm Follower - Satin Stainless Steel - 102mm (4")

Variant code: 2415.82.75.SSS

Heavy Duty Tubular Deadbolt with 5mm Follower is a robust locking solution engineered for reliable performance in both commercial and residential applications. Finished in **Satin Stainless Steel (SSS)**, this premium tubular deadbolt is designed to provide smooth operation, exceptional durability and long service life when used with deadbolt turn releases and privacy locking systems. Its heavy-duty construction makes it ideal for high-traffic environments where dependable security is essential.

Manufactured to withstand frequent operation, the deadbolt features a **5mm follower** for compatibility with a wide range of thumbturns and locking furniture. The satin stainless steel forend provides excellent corrosion resistance while complementing modern architectural door hardware. Available in multiple backset sizes, the deadbolt offers flexibility for a variety of door configurations and installation requirements.

Suitable for professional joinery, commercial fit-outs and residential developments, the Heavy Duty Tubular Deadbolt delivers reliable locking performance with a clean, contemporary finish that coordinates perfectly with satin stainless steel door furniture.
