Blum Legrabox Drawer Box Component - Waste Bin System 70kg 500mm - Orion Grey

Variant code: BLK.50507.58.M.BIN.OG

Blum LEGRABOX Drawer Box Component - Waste Bin System 70kg 500mm - Orion Grey is designed to provide an integrated waste storage solution within the LEGRABOX drawer system, combining **high load capacity**, **efficient organisation** and a **refined drawer design**. As part of Blum's premium drawer platform, this configuration supports practical waste management while maintaining the clean, straight-line aesthetic of modern cabinetry.

Designed to accommodate integrated waste bins, the system includes provision for **two internal bin containers**, enabling effective separation of waste within a single drawer unit. The **70kg load capacity** ensures reliable performance under regular use, making it suitable for high-demand kitchen environments. Engineered for compatibility with LEGRABOX runners and components, it delivers **smooth drawer operation**, **stable construction** and consistent alignment.

The drawer system supports precise assembly and adjustment, ensuring **accurate positioning** and clean visual lines across installations. Finished in **Orion Grey**, it integrates seamlessly with LEGRABOX drawer sides and surrounding cabinetry. Available in multiple **nominal lengths**, it can be specified to suit different cabinet sizes and configurations.

Product Features

- Designed for **Blum LEGRABOX drawer systems**
- Integrated **waste bin drawer configuration**
- Includes provision for **two internal bin containers**
- **70kg load capacity** for heavy-duty use
- Supports **smooth and stable drawer operation**
- Finished in **Orion Grey**
- Available in multiple **nominal lengths**

Product Benefits

- Enables **efficient waste separation and organisation**
- Maximises use of internal cabinet space
- Supports **clean and modern kitchen design**
- Provides **stable and reliable drawer performance**
- Enhances functionality of kitchen storage systems
- Suitable for **high-use residential and commercial environments**

Technical Characteristics

- Requires pairing with **LEGRABOX runner systems**
- Designed for integration with internal waste bin components
- Nominal length must match cabinet depth and runner selection
- Supports accurate installation and alignment
- Compatible with full extension drawer configurations
- Engineered for durability and long-term performance

Applications

This drawer box component is suitable for **kitchen cabinetry and fitted furniture** where integrated waste management is required. It is particularly effective in base cabinet installations, allowing waste bins to be concealed within a drawer while maintaining easy access and organisation. The **70kg load capacity** and dual-bin configuration make it ideal for both residential kitchens and commercial environments requiring efficient and durable waste storage solutions.
