

Light Duty Frameless Shower Door Hinge – for 6–8mm Glass – Polished Chrome

Variant code: EH84

Light-Duty Frameless Shower Door Hinge – For 6–8mm Glass

Create Seamless and Elegant Shower Enclosures with Precision and Reliability

Product Description:

Improve your bathroom and wet room projects with our Light-Duty Frameless Shower Door Hinge, designed specifically for professionals who demand both aesthetic excellence and dependable functionality. Ideal for joiners, carpenters, and fit-out specialists, this hinge is the perfect solution for creating sleek, modern shower enclosures using 6–8mm toughened glass. Its frameless design provides a clean, minimalist look that is highly sought after in contemporary architectural and interior design.

Engineered for Durability and Smooth Operation:

Crafted from high-quality materials, this hinge is built to last. The solid construction ensures a secure and stable connection, while the precision-engineered mechanism allows for a consistently smooth and quiet opening and closing action. The hinge is designed to support the weight of light-duty glass panels (6–8mm thickness), providing peace of mind and long-term reliability. Its discreet and modern aesthetic complements a wide range of bathroom styles, from minimalist to luxurious, without detracting from the overall design.

Seamless Integration and Easy Installation:

This hinge is engineered for straightforward installation, saving you valuable time on-site. The design requires precise glass cut-outs, which are a standard practice for professional glass suppliers. Once the glass is prepared, the hinge can be fitted with ease, allowing for a quick and efficient project completion. The hinge's frameless nature removes the need for bulky metal frames, resulting in a clean, uninterrupted glass surface that is both

visually appealing and easier to clean for the end-user.

Key Features & Benefits:

- **Frameless Design:** Achieves a modern, minimalist aesthetic for a high-end finish.
- **Light-Duty Application:** Perfectly suited for 6–8mm toughened glass, a common choice for shower doors.
- **Durable Construction:** Made from robust materials for long-lasting performance and reliability.
- **Smooth Operation:** Ensures a quiet and effortless door action every time.
- **Easy to Install:** Designed for professional fitting, saving time and effort.
- **Versatile Finishes:** Available in a range of finishes to match any bathroom hardware (e.g., polished chrome, brushed nickel, matte black).
- **Enhanced Aesthetics:** Creates a high-value, bespoke feel for any shower enclosure.

Applications:

- Frameless Shower Enclosures
- Wet Room Screens
- Glass Partition Doors
- Bathroom Renovations & Refurbishments
- Custom Home Builds
- Hotel & Hospitality Bathroom Fit-outs
- Commercial Office Bathroom Partitions

Equip your projects with the very best. Our Light-Duty Frameless Shower Door Hinge provides the perfect blend of elegant design and professional-grade performance, ensuring your installations are not only beautiful but built to last.
