Secure and Streamline Your Sliding Doors: The Lockey Sliding Door Mechanical Digital Lock

As a professional joiner or carpenter, you understand the importance of providing your clients with secure, reliable, and user-friendly solutions. The Lockey Sliding Door Mechanical Digital Lock is the perfect hardware upgrade for any sliding door application, offering superior security and effortless keyless convenience. Designed specifically for the trade, this lock is an excellent choice for new installations or retrofitting existing doors, ensuring a high-quality, professional finish every time.

Why Choose the Lockey Sliding Door Lock?

1. Enhanced Security Without the Hassle: This lock utilises a robust mechanical digital keypad, eliminating the need for keys. This not only enhances security by removing the risk of lost or stolen keys but also provides your clients with a simple and convenient way to access their property. The code can be easily changed, giving them complete control over their security. The sturdy, all-metal construction provides a formidable deterrent against forced entry, giving you and your clients peace of mind.

2. Built for Durability and Longevity: Crafted from high-quality materials, the Lockey Sliding Door Lock is engineered to withstand the rigours of daily use and the elements. Its weatherproof design makes it suitable for both internal and external applications, protecting against rust and corrosion. You can confidently install this lock on timber, uPVC, or aluminium sliding doors, knowing it will provide years of reliable service with minimal maintenance.

3. Simple and Efficient Installation: Time is money. The Lockey Sliding Door Lock is designed with the professional in mind. The comprehensive instructions and straightforward design ensure a quick and hassle-free installation process. You can easily mortise this lock into various door types, making it a versatile addition to your tool kit. Its non-handed design means it can be fitted to both

left and right-hand opening doors, reducing the need to carry multiple variations in your van.

4. The Professional's Choice: This lock is a trusted choice for joiners, carpenters, and locksmiths alike. Its reputation for reliability and quality makes it a valuable asset for your business, allowing you to offer a premium, high-security solution to your clients. From residential patio doors and French doors to commercial office partitions, this lock provides a professional and elegant finishing touch that your customers will appreciate.
