

Million Lock Series – Cabinet Rim Lock – Keyed Alike – Black

Variant code: 7810-30BL-D

Million Lock Series Cabinet Rim Lock is a premium **keyed alike cabinet lock** designed to provide reliable security and convenient key management for furniture, cabinetry and storage units. Finished in a modern **black**, this heavy-duty rim lock combines robust construction with smooth operation, making it ideal for commercial, residential and institutional applications. The **keyed alike** system allows multiple locks to be operated using the same key, simplifying access management while maintaining dependable security.

Engineered for professional cabinet makers, joiners and installers, the Million Lock Series features a durable rim lock mechanism that helps protect valuable contents from unauthorised access. Its clean black finish complements contemporary furniture and architectural joinery, while the straightforward installation makes it suitable for both new furniture manufacture and retrofit applications. Whether securing office furniture, workshop storage or display cabinets, this lock delivers consistent performance and long service life.

Designed for both professionals and DIY users, the Sugatsune Million Lock Series offers an ideal combination of security, convenience and premium aesthetics. The keyed alike configuration reduces the number of keys required while providing a practical locking solution across multiple cabinets, cupboards or drawers.
