

Mortice Magnet

Variant code: 1000R

Mortice Magnet: Seamless Security & Unrivalled Holding Power

Experience the pinnacle of discreet and robust security with our innovative Mortice Magnet. Engineered for seamless integration into a wide range of door and gate applications, this powerful electromagnetic lock provides unparalleled holding force, ensuring complete peace of mind for your property.

Designed for both residential and commercial environments, the Mortice Magnet offers a sophisticated alternative to traditional locking mechanisms. Its concealed installation within the door frame provides a sleek, minimalist aesthetic while delivering maximum security against forced entry.

Key Features & Benefits:

- **Exceptional Holding Force:** Boasting an impressive 600lbs (272kg) of holding force, our Mortice Magnet provides superior security, making it virtually impenetrable to unauthorized access. Ideal for high-traffic areas and sensitive environments.
- **Discreet & Concealed Installation:** Designed to be morticed directly into the door frame, the magnet is completely hidden when the door is closed, offering a clean, aesthetically pleasing finish and enhanced security against tampering.
- **Durable & Reliable Construction:** Crafted from high-quality, corrosion-resistant materials, the Mortice Magnet is built to withstand rigorous use and harsh environmental conditions, ensuring long-lasting performance and reliability.
- **Silent & Smooth Operation:** Enjoy whisper-quiet operation and effortless access control. The electromagnetic mechanism ensures smooth, frictionless

locking and unlocking, enhancing user experience.

- **Versatile Application:** Perfect for a multitude of setups, including wooden doors, metal doors, sliding gates, access control systems, and intercom-integrated entry points.
- **Easy Integration:** Compatible with most standard access control systems, including keypads, RFID readers, push buttons, and remote controls, offering flexible security solutions.
- **Energy Efficient Design:** Optimized for low power consumption, the Mortice Magnet is an energy-conscious choice for continuous security without significant impact on your electricity bills.
- **Enhanced Security:** Provides an instant, fail-safe locking mechanism when power is applied (fail-secure) or released (fail-safe options available), offering adaptable security protocols for various safety requirements.

Ideal For:

- Residential homes seeking discreet yet powerful security.
- Commercial offices and retail spaces requiring reliable access control.
- Schools, hospitals, and public buildings with high security demands.
- Warehouses and industrial facilities protecting valuable assets.
- Integrating with existing smart home and building management systems.

Upgrade your security infrastructure with the Mortice Magnet and discover the perfect blend of discreet design, superior strength, and effortless control. Invest in advanced security that you can trust.
