Premium Solid Brass Counter Flap Dovetail Hinge 44.5mm x 115mm c/w Screws - Self Brass

Variant code: 0520.SC

The **Premium Solid Brass Counter Flap Hinge** is a robust and traditionally styled hinge designed specifically for **flush wooden counters**. Measuring **44.5 x 115mm** and offering a manufacturer-specified **10kg load capacity**, it provides a practical hinge solution for counter flaps and other appropriate flush-fitting timber applications.

Specified here in a **Self Brass** finish, the hinge offers the warm, traditional appearance associated with brass architectural hardware. Its substantial **3.1mm material thickness** provides a solid construction suited to professional counter and joinery installations, while its design accommodates both **right- and left-hand applications**.

Designed primarily for **bar and shop counters**, this counter flap hinge provides a practical solution where a flush wooden counter section needs to open and close while maintaining a neat overall installation. Its combination of **solid brass construction, substantial proportions and specialist counter application** makes it particularly suitable for traditional joinery, hospitality counters and bespoke commercial furniture.

Product Features

- **Premium solid brass counter flap hinge**
- Designed specifically for **flush wooden counters**
- Ideal for **bar and shop counter applications**
- Current manufacturer dimensions of **44.5 x 115mm**
- Manufacturer-specified **10kg load capacity**
- Substantial **3.1mm material thickness**
- Suitable for **right- and left-hand applications**
- Designed for specialist **counter flap and flush-fitting joinery**
