

Premium Solid Drawn Brass Butt Hinge 76.2 x 60mm – Polished Brass Unlacquered

Variant code: 1020.PBUL

Premium Solid Drawn Brass Butt Hinge – 76.2 x 60mm

Improve your joinery projects with our **Premium Solid Drawn Brass Butt Hinge**, meticulously crafted for unparalleled durability, smooth operation, and timeless aesthetic appeal. Measuring a substantial **76.2mm (3 inches) in height and 60mm in width**, this hinge is engineered to provide robust support for a wide range of doors, cabinets, and furniture, ensuring long-lasting performance in both residential and commercial settings.

Key Features & Benefits:

- **Exceptional Durability: Solid Drawn Brass Construction:** Unlike cheaper alternatives, our hinges are manufactured from **solid drawn brass**. This process involves pulling a brass rod through a die, resulting in a dense, homogenous material free from the imperfections and air pockets often found in cast brass. The outcome is a hinge with superior strength, exceptional wear resistance, and an inherent ability to withstand heavy loads and frequent use without bending or deforming. This makes it an ideal choice for **heavy-duty applications** and high-traffic areas.
- **Corrosion Resistance & Longevity:** Brass is naturally resistant to rust and corrosion, making this hinge an excellent choice for environments where moisture might be a concern, such as bathrooms, kitchens, or even external gates (when properly maintained). Its inherent resilience ensures a beautiful, functional product for decades to come, reducing the need for frequent replacements.
- **Smooth & Silent Operation:** Precision-machined knuckle joints and a high-quality pin ensure an incredibly **smooth and silent swinging action**. Say goodbye

to squeaky doors and experience the effortless glide of a perfectly balanced hinge. The tight tolerances prevent unwanted play, contributing to a secure and stable fit for your door or cabinet.

- **Timeless Aesthetic Appeal:** The elegant, golden lustre of polished brass adds a touch of sophistication and classic charm to any interior. This hinge is not just a functional component but a design element that enhances the overall aesthetic of your space, complementing both traditional and contemporary décors. Over time, brass can develop a beautiful patina, adding to its character and vintage appeal.
- **Versatile Application:** This **76.2mm x 60mm butt hinge** is perfectly sized for a multitude of applications. It's an ideal choice for **interior doors, cabinet doors, wardrobe doors, chest lids**, and various **furniture projects**. Its robust construction also makes it suitable for **light commercial doors** and heavier panels.
- **Easy Installation:** Designed for standard mortise fitting, our butt hinge ensures straightforward installation for professional joiners and DIY enthusiasts alike. Pre-drilled holes simplify the screw placement, allowing for a secure and flush mount. (Screws typically not included, allowing you to choose the finish that best suits your project).

Invest in the enduring quality and timeless beauty of our Premium Solid Drawn Brass Butt Hinge. A small detail that makes a significant difference in the longevity, functionality, and aesthetic appeal of your cherished projects.
