

PREMIUM Solid Drawn Brass Dummy Butt Hinge 75mm – Imitation Bronze (UK 508)

Variant code: 0790.IBMA

PREMIUM Solid Drawn Brass Dummy Butt Hinge 75mm – Imitation Bronze: The Perfect Decorative Touch for Period & Traditional Joinery

Elevate the aesthetic of your cabinets, cupboards, and lightweight doors with our exquisite 75mm PREMIUM Solid Drawn Brass Dummy Butt Hinge, finished in a stunning Imitation Bronze. Crafted from high-quality, solid drawn brass, this non-functional hinge is designed to provide the authentic look of a traditional butt hinge without the need for operational hardware, making it ideal for purely decorative purposes or where a hinge effect is desired on fixed panels.

Unmatched Quality & Authentic Aesthetics:

Unlike hollow or plated alternatives, our dummy butt hinge is forged from **solid drawn brass**, ensuring exceptional durability, a substantial feel, and a superior finish. The beautiful **Imitation Bronze** coating is meticulously applied to replicate the rich, aged patina of antique bronze, perfectly complementing **period properties, heritage renovations, traditional furniture, and classic interior designs**. This attention to detail guarantees an authentic vintage appearance that will enhance the character of any project.

Why Choose a Dummy Butt Hinge?

Dummy hinges are an ingenious solution for achieving a cohesive design aesthetic. They are particularly useful for:

- **Fixed Panels:** Create the illusion of hinged doors on static cupboard fronts, wardrobe panels, or dummy drawers.
- **Aesthetic Continuity:** Maintain a uniform look across a run of cabinetry where some doors are hinged and others are fixed.
- **Decorative Flair:** Add a touch of traditional elegance to bookcases, display cabinets, or even period-style internal doors where a functional hinge isn't required.

- **Preventing Sagging:** For very wide or heavy doors that use operational hinges, a dummy hinge can be added for extra visual support and to prevent perceived sagging over time, even if it's not weight-bearing.

Key Features & Benefits:

- **Premium Solid Drawn Brass:** Superior strength, weight, and longevity compared to pressed steel or plated options.
- **Authentic Imitation Bronze Finish:** Beautifully replicates aged bronze for a timeless, classic look.
- **75mm Size:** Ideal for a wide range of decorative applications on joinery and lightweight doors.
- **Non-Functional / Dummy Design:** Perfect for fixed panels and purely aesthetic purposes.
- **Easy to Install:** Designed for simple surface mounting (screws not included, allowing you to choose the best finish for your project).
- **Versatile Application:** Excellent for **kitchen cabinets, bedroom wardrobes, antique furniture restoration, bespoke joinery, traditional doors, and heritage projects.**
- **Durable & Long-Lasting:** Resists tarnishing and wear, maintaining its elegant appearance for years to come.
