

PREMIUM Solid Drawn Brass Dummy Butt Hinge 75mm – Imitation Bronze (UK 508)

Variant code: 0790.IBMA

The **Premium Solid Drawn Brass Dummy Butt Hinge** is a decorative hinge designed to **replicate the appearance of a traditional butt hinge** on cabinetry, lightweight doors and other suitable joinery. Measuring **75mm in overall length** and finished in an attractive **Imitation Bronze**, it provides a traditional architectural detail where the visual appearance of a hinge is required without an operational hinge function.

Designed specifically for **decorative purposes**, the dummy hinge is particularly useful for creating visual consistency between functional doors and adjacent fixed panels. It can be used alongside the corresponding functional brass hinge to maintain a **coordinated and authentic traditional appearance** across cabinetry, cupboards, furniture and lightweight door installations.

The **Imitation Bronze finish** provides a rich, traditional appearance particularly suited to **period properties, heritage-inspired interiors, furniture restoration and bespoke joinery**. With an overall size of **75 x 24.1mm**, a **6mm knuckle diameter** and **2mm material thickness**, this decorative hinge provides a carefully proportioned finishing detail for quality interior projects.

Product Features

- **Decorative dummy butt hinge** designed to replicate the appearance of a functional butt hinge
- Manufactured from **brass**
- Attractive **Imitation Bronze** finish
- **75mm overall length**
- **24.1mm overall width**
- **6mm knuckle diameter**
- **2mm material thickness**
- Designed specifically for **decorative purposes**
- Suitable for use with **cabinets and lightweight doors**
- Ideal for creating a consistent hinge appearance across **functional and fixed**

panels

- Suitable for **right- and left-hand applications**
- Traditional styling complements **period and heritage-inspired interiors**

Product Benefits

- **Replicates the appearance of a traditional butt hinge without requiring an operational hinge function**
- **Imitation Bronze finish provides an attractive aged-style appearance ideal for traditional and period-inspired interiors**
- **75mm size coordinates with the corresponding functional brass hinge for a consistent architectural appearance**
- Ideal for adding decorative hinge detailing to **fixed cupboard fronts, cabinetry and other non-opening panels**
- Helps maintain **visual continuity** where functional and non-functional panels appear alongside one another
- Brass construction provides a **substantial, quality feel** suited to premium furniture and joinery
- Suitable for **right- and left-hand applications** for greater installation flexibility
- Well suited to **restoration work and bespoke joinery** where traditional hardware detailing is important

Technical Characteristics

- **Product Type:** Dummy Butt Hinge
- **Function:** Decorative / Non-Functional
- **Material:** Brass
- **Finish:** Imitation Bronze
- **Overall Length:** 75mm
- **Overall Width:** 24.1mm
- **Knuckle Diameter:** 6mm
- **Material Thickness:** 2mm
- **Handing:** Right & Left Hand
- **Suitable For:** Cabinets & Lightweight Doors
- **Certifications / Quality Marks:** No Specific Certification Listed
- **Function Range:** No Specific Function Range Listed

Applications

The **Premium Solid Drawn Brass Dummy Butt Hinge** is suitable for decorative use across **cabinetry, cupboards, lightweight doors, furniture, fixed panels and bespoke joinery**. As a **non-functional dummy hinge**, it is particularly useful where the appearance of traditional hinged construction is desired on a fixed component or where visual continuity with adjacent functional hinges is required. Its **75mm size and Imitation Bronze finish** make it particularly appropriate for **period properties, heritage renovations, traditional furniture, restoration projects and classic interior schemes**.
