

Push Plate – Radiused Corners Push Plate – Drilled & Countersunk 500 x 75mm – Matt Black

Variant code: FPP1500MB

Introducing the **P-Push Plate – Radiused Corners Push Plate – Drilled & Countersunk 500 x 75mm – Matt Black**, a superior blend of functionality, durability, and contemporary style designed to protect your doors while enhancing their aesthetic appeal.

In high-traffic environments, doors are constantly subjected to wear and tear. Our P-Push Plate offers an elegant and robust solution, safeguarding your doors from scuffs, scratches, and damage caused by repeated pushing. Crafted from high-quality materials and finished in a sophisticated Matt Black, this push plate seamlessly integrates into a variety of interior designs, from modern minimalist to industrial chic.

Key Features for Optimal Performance and Design:

- **Premium Protection:** Constructed to withstand daily use, this push plate acts as a durable barrier, significantly extending the lifespan of your doors by preventing unsightly marks and damage. Ideal for commercial, public, and even residential settings where doors see frequent use.
- **Sleek Radiused Corners:** Unlike sharp, angular plates, our P-Push Plate features beautifully radiused (rounded) corners. This not only adds a touch of refined design but also enhances safety by eliminating sharp edges, making it suitable for environments with children or frequent foot traffic.
- **Optimal Dimensions:** Measuring **500mm in length and 75mm in width**, this generously sized push plate provides ample coverage for the most commonly impacted areas of your door. Its proportions are carefully considered to offer maximum protection without overpowering the door's design.
- **Pre-Drilled & Countersunk for Easy Installation:** Save time and effort with our

intelligently designed push plate. It comes **pre-drilled with countersunk holes**, ensuring a flush and professional finish once screws are installed. This allows for a quick, secure, and aesthetically pleasing mounting process.

- **Sophisticated Matt Black Finish:** The on-trend **Matt Black finish** offers a modern and understated elegance that complements a wide range of door colours and hardware. This durable, chip-resistant coating not only looks superb but also provides excellent resistance to fingerprints and smudges, maintaining a clean appearance.
- **Versatile Application:** Perfect for a multitude of settings including:
 - **Commercial Buildings:** Offices, retail stores, restaurants, cafes
 - **Public Spaces:** Schools, hospitals, community centres, libraries
 - **Residential Homes:** Kitchen doors, garage access doors, utility rooms
 - Any door requiring enhanced protection and a touch of modern design.
- **Durable Construction:** Made from high-quality materials
