Recessed Black Profile - Inc Black Push-on Diffuser - 2500mm

Variant code: LLP03306BKBK.2500

Introducing the ultimate solution for seamless, professional linear lighting: our **Recessed Black Profile with Inc Black Push-on Diffuser**. This 2500mm (2.5 meter) black aluminium extrusion is meticulously engineered for a flawless, integrated look, making it the perfect choice for a wide range of interior and architectural lighting applications.

Sleek Design for Modern Spaces

Crafted from high-quality, durable aluminium, this recessed profile is designed to disappear into ceilings, walls, or even joinery, creating a clean and sophisticated aesthetic. The deep black finish of both the profile and the innovative **Push-on Inc Black Diffuser** ensures a contemporary, minimalist look that complements any modern decor. This is more than just a light fixture; it's a design element that elevates the entire space.

Effortless Installation & Superior Performance

Our **recessed LED profile** is designed for easy installation. The 2500mm length is ideal for long runs, reducing the need for multiple joins and creating a continuous line of light. The unique **Push-on Inc Black Diffuser** snaps securely into place, offering a tool-free installation process. This black diffuser not only matches the profile for a cohesive, professional finish but also helps to minimise the "dotting" effect of the LED strip, creating a smooth, even, and consistent illumination.

Key Features & Benefits:

- **Premium Quality:** Made from robust, corrosion-resistant aluminium for long-lasting durability.
- **Seamless Integration:** Designed for recessed installation in plasterboard, wood, or other materials for a discreet, built-in look.
- **Modern Black Finish:** The sleek black profile and diffuser offer a contemporary aesthetic that stands out from standard silver options.
- **Easy & Secure Installation:** The

innovative push-on diffuser simplifies assembly and ensures a tight, professional fit.
- **Reduces Glare & Dotting:** The opaque black diffuser softens the light output and creates a smooth, diffused glow.
- **Versatile Applications:** Perfect for kitchen under-cabinet lighting, feature wall illumination, retail displays, office environments, and commercial projects.
- **Optimised Length:** The **2500mm (2.5m) long LED channel** is perfect for creating impressive, continuous light runs.
- **Excellent Heat Dissipation:** The aluminium profile acts as a heat sink, extending the lifespan of your LED strip lights.

Enhance Your Space with Professional Lighting

Whether you're a professional electrician, an interior designer, or a DIY enthusiast, our **Recessed Black LED Profile** is the professional choice for achieving a high-end, bespoke lighting scheme. The sleek design, simple installation, and superior light quality make it an essential component for any modern lighting project.
