

Roller Shutter Mortice Lock Case – Backset 22 mm – Symo 3000 – Nickel

Variant code: 230.39.620

Roller Shutter Mortice Lock Case – Backset 22mm – Symo 3000 – Nickel: Secure Your Roller Shutters with Precision and Style

Enhance the security and functionality of your roller shutters with the premium Symo 3000 Roller Shutter Mortice Lock Case. Engineered for durability and designed with a sleek nickel finish, this lock case provides robust protection and a professional aesthetic for a wide range of roller shutter applications, from commercial premises to residential garages and kiosks.

Key Features & Benefits:

- **Optimal Security:** The Symo 3000 series is renowned for its reliable locking mechanism, offering superior resistance against forced entry and ensuring the contents behind your roller shutters are secure.
- **Ideal 22mm Backset:** Specifically designed with a 22mm backset, this lock case is perfect for roller shutters where a narrow profile is essential. This precise measurement ensures a snug fit and optimal operation within the shutter's structure, preventing unnecessary protrusion and maintaining a clean look.
- **Durable Nickel Finish:** The elegant nickel plating not only adds a touch of modern sophistication but also provides exceptional resistance to corrosion, rust, and wear. This makes it an ideal choice for both indoor and outdoor roller shutter installations, standing up to varying weather conditions and high-traffic environments.
- **Symo 3000 Series Quality:** As part of the trusted Symo 3000 range, this mortice lock case guarantees high-quality manufacturing and consistent performance. Symo is a recognised name in security hardware, offering peace of mind through proven reliability.
- **Versatile Application:** While primarily designed for roller shutters, this versatile mortice lock case can also be used in

other narrow stile applications, including security grilles, cabinets, and industrial access points where a compact, secure locking solution is required.

- **Easy Integration (Lock Case Only):** This product is the mortice lock case only, allowing you the flexibility to pair it with your preferred Symo 3000 compatible cylinders, escutcheons, and handles to create a complete security solution tailored to your specific needs. This is perfect for replacements or custom installations.

Why Choose the Symo 3000 Roller Shutter Mortice Lock Case?

When it comes to securing your valuable assets, compromise isn't an option. The Symo 3000 Roller Shutter Mortice Lock Case offers the perfect blend of high security, precision engineering, and aesthetic appeal. Its robust construction and reliable operation make it a preferred choice for:

- **Commercial Roller Shutters:** Ideal for shop fronts, industrial units, warehouses, and storage facilities requiring robust security.
- **Residential Garage Doors:** Enhance the security of your garage with a dependable locking mechanism.
- **Kiosk and Counter Shutters:** Provide peace of mind for retail kiosks, service counters, and vending points.
- **Security Grilles and Gates:** A narrow profile makes it suitable for various types of security grilles and gates.
