Salice Air Aluminium Door Profile - 19mm Width - 3000mm Length - Titanium

Variant code: DEL9LP300T

The **Salice Air Aluminium Door Profile** is a premium architectural aluminium section designed for the manufacture of contemporary cabinet doors. Featuring a slim **19mm profile width** and finished in an elegant **Titanium** coating, it delivers a clean, minimalist appearance while providing the strength and rigidity required for high-quality residential and commercial furniture.

Designed as part of the innovative **Salice Air furniture system**, this aluminium profile is manufactured to integrate seamlessly with compatible Salice Air concealed hardware, allowing designers and cabinet makers to create elegant furniture with discreet, high-performance fittings. Supplied in a convenient **3000mm length**, the profile can be cut to size for bespoke cabinetry and furniture manufacturing.

Combining premium Italian engineering with contemporary styling, the Salice Air Aluminium Door Profile is an ideal choice for luxury kitchens, wardrobes, display cabinets, bathroom furniture and bespoke joinery where durability, precision and refined aesthetics are essential.
