

Salice Air Aluminium Door Profile – Width 19mm 3000mm Length – Titanium

Variant code: DEL9LP300T

Salice Air Square Section for Glass Door with Aluminium Profile (26mm)

The **Salice Air Square Section hinge**, specifically engineered for use with **glass doors mounted within a 26mm aluminium door profile**. This innovative and aesthetically minimal hinge provides a perfect blend of high-performance functionality and sleek, modern design, making it the ideal choice for contemporary cabinets and display units.

? Key Features and Benefits

Feature	Benefit
Invisible Technology	The hinge is completely concealed within the door structure, providing a clean, uninterrupted surface and a truly minimal aesthetic. The focus remains entirely on the door material and design.
Designed for Aluminium Profiles	Perfectly tailored for glass doors utilising a 26mm X 26mm square-section aluminium profile (or similar dimensions), ensuring a flawless and secure fit without modification.
Integrated Soft-Close	Features a sophisticated, silent soft-close mechanism integrated directly into the hinge. This ensures the door closes gently and quietly every time, enhancing user experience and protecting the furniture.
Quick and Tool-Free Assembly	Utilises the Salice ' Air ' mounting system , allowing for fast, intuitive, and tool-free attachment of the door

Feature	Benefit
	to the cabinet, significantly reducing assembly time.
Superior Performance	Certified for up to 200,000 opening cycles , offering exceptional durability and a long, reliable service life for high-use applications.
Minimal Aesthetics	Offers a sophisticated, high-end look that is perfect for luxury residential, retail, and commercial interior applications where visual clutter must be eliminated.
