

Salice Conecta Hidden Soft Close 94° Hinge, For Wooden Doors – Full Overlay – Nickel

Variant code: CQA3KE9XXV

The **Salice Conecta Hidden Soft Close 94° Hinge** is an innovative concealed hinge designed specifically for **full overlay wooden cabinet doors**. Completely hidden within the cabinet side and door, the Conecta hinge creates a seamless, minimalist appearance while delivering exceptional strength, precision and smooth, controlled door movement. Its concealed design makes it the ideal solution for premium furniture where clean aesthetics and high-performance hardware are essential.

Engineered with Salice's renowned Italian craftsmanship, the Conecta hinge incorporates an **integrated soft close mechanism** that provides quiet, decelerated closing for enhanced user comfort and reduced wear on furniture. Designed to manage the opening and closing movements of large and heavy wooden doors with precision and fluidity, it features a **22mm deep, 35mm diameter metal cup**, a **94° opening angle** and a rapid fixing system that enables fast installation and easy removal of the door when required. Comprehensive three-way adjustment allows installers to achieve perfect door alignment with ease.

Finished in a durable **Nickel Plated** coating, the Salice Conecta Hidden Soft Close Hinge combines elegant concealed installation with long-lasting reliability, making it the perfect choice for high-end residential and commercial furniture applications.

Product Features

- Salice Conecta hidden soft close hinge
- Designed for full overlay wooden cabinet doors
- Completely concealed hinge system
- Integrated soft close mechanism
- Rapid fixing system for quick installation and door removal
