

Salice Exedra Gravity – Pocket Hinge & Slide System Door height Range – 1600–3000 Right Hand – Nickel Push

Variant code: EGV1630.RH.NI.PUSH

Salice Exedra Gravity: Premium Pocket Door System (Right Hand, Nickel Push)

Experience unparalleled smooth operation and intelligent design with the Salice Exedra Gravity pocket hinge and slide system. Engineered for discerning homeowners and professional craftsmen, this premium solution seamlessly conceals cabinet doors, optimising space and creating a sleek, minimalist aesthetic in any room.

Unlock the Potential of Your Space:

The Exedra Gravity system is designed for **right-hand opening doors** with an impressive **height range of 1600mm to 3000mm**, offering exceptional versatility for a wide array of applications. Whether you're creating custom kitchen pantries, elegant living room storage, or sophisticated office cabinetry, this system provides a perfect fit for tall and standard-height doors alike.

Key Features & Benefits:

- **Effortless Pocket Door Operation:** The innovative gravity-assisted mechanism ensures a remarkably **smooth and silent sliding motion**. Doors glide effortlessly into and out of their concealed pocket, providing instant access and a clean, flush appearance when closed.
- **Space-Saving Design:** Ideal for areas where traditional swinging doors are impractical or undesirable. Reclaim valuable floor space and enhance the flow of your interior design by utilising this **concealed door system**.
- **Robust & Reliable Construction:** Crafted with high-quality materials and Salice's renowned engineering precision, the Exedra Gravity boasts exceptional

durability and longevity. This is a **heavy-duty pocket door solution** built to withstand daily use.

- **Integrated "Push-to-Open" Mechanism (Nickel Push):** The integrated **Nickel Push** mechanism provides convenient **handle-less door operation**. A gentle press on the door front triggers its smooth outward movement, maintaining a clean and minimalist aesthetic. This is a perfect **touch-to-open cabinet system**.
- **Adjustable & Versatile:** Fine-tuning is made easy with integrated adjustments for perfect door alignment and operation. This system supports a wide range of door weights and materials, making it a highly **adaptable cabinet hardware solution**.
- **Premium Nickel Finish:** The elegant nickel components not only ensure long-lasting performance but also contribute to a sophisticated and modern look, complementing a variety of interior styles.
- **Ideal for Tall Doors:** Specifically designed to handle doors up to 3000mm, making it an excellent choice for **full-height cabinet doors, wardrobe doors, and architectural joinery**.

Applications:

- **Kitchen Pantries & Cabinets:** Create seamless and accessible storage solutions.
- **Wardrobes & Closets:** Maximise space in bedrooms and dressing areas.
- **Office Furniture:** Achieve a clean and organised workspace.
- **Living Room Media Units:** Conceal electronics and clutter for a streamlined look.
- **Built-in Cabinetry:** Enhance the functionality and aesthetics of custom

furniture.

- **Commercial Applications:** Perfect for retail displays, hospitality furniture, and more.

Invest in the Salice Exedra Gravity pocket door system and transform your spaces with intelligent design, superior functionality, and a touch of modern elegance. Experience the future of concealed door solutions.
