

Salice Exedra Gravity – Pocket Hinge & Slide System Door height Range 1600–3000 Left Hand – Nickel Push-To-Open

Variant code: EGV1630.LH.NI.PUSH

Salice Exedra Gravity – Pocket Hinge & Slide System: Revolutionise Your Space with Seamless Design

Unlock unparalleled functionality and sophisticated aesthetics with the **Salice Exedra Gravity Pocket Hinge & Slide System**. This innovative, left-hand configured solution, finished in elegant Nickel with a convenient **Push-To-Open** mechanism, is engineered to transform your interiors, offering a seamless and space-optimising experience for doors ranging from **1600mm to an impressive 3000mm in height**.

Experience the pinnacle of concealed door technology. The Salice Exedra Gravity system allows doors to effortlessly retract into a hidden compartment within your cabinetry, eliminating the need for traditional swinging doors that consume valuable floor space. Ideal for contemporary living, this **premium pocket door hardware** redefines spatial efficiency in any room, from **hidden kitchens and minimalist living areas to organised laundry rooms and sleek home offices**.

Key Features & Benefits that Elevate Your Design:

- **Effortless "Push-To-Open"**
Functionality: Embrace the clean, handle-less aesthetic. A gentle push activates the smooth, assisted door extraction, revealing your concealed space with quiet precision. No handles, no clutter – just pure, streamlined design.
- **Gravity-Assisted, Silky Smooth Operation:** Experience a truly remarkable opening and closing motion. The advanced linear damping system ensures a controlled, silent, and fluid movement as the door glides into and out of its pocket, regardless of insertion speed. Say

goodbye to jarring movements and noisy closures.

- **Exceptional Door Height Versatility:** Designed to accommodate a wide range of design aspirations, this system supports door heights from **1600mm up to 3000mm**, making it perfect for grand entrances, floor-to-ceiling storage, or unique architectural features.
 - **Robust & Reliable Performance:** Built for durability, the Salice Exedra Gravity system can handle single doors up to **40kg (with 5 hinges for doors up to 750mm width, or 30kg distributed evenly)**. It's suitable for door thicknesses from **10mm to 30mm** and widths from **300mm to 900mm**, ensuring long-lasting, consistent performance.
 - **Concealed Mechanism for Clean Lines:** The entire sliding mechanism is ingeniously hidden within a compact 55mm housing, preserving the minimalist and modern aesthetic of your cabinetry.
 - **Precision Adjustability:** Achieve a perfect fit with extensive adjustment options. The system offers vertical (+4/-1 mm), horizontal (±2 mm), and front (±4 mm) door adjustments, ensuring flawless alignment and functionality after installation.
- Left-Hand Configuration:** Specifically designed for left-hand opening doors, ensuring perfect compatibility and ease of installation for your chosen layout.
- **Elegant Nickel Finish:** The durable and stylish nickel finish provides a sophisticated touch, seamlessly integrating with a variety of interior styles and hardware.
 - **Versatile Applications:** From **larder units and pantry cabinets** in modern kitchens to **integrated media centres, concealed workspaces, walk-in wardrobes, and hidden utility areas**, the Salice Exedra Gravity offers limitless design possibilities for **space-saving furniture solutions**.
