

Salice Pacta – Soft Opening – Medium Doors approx 3.5 to 6.5kg

Variant code: FRBKFEXISN9

Salice Pacta – Soft Opening Hinge System for Medium Doors (3.5 – 6.5kg)

Unleash the potential of your cabinetry with the revolutionary **Salice Pacta Soft Opening Hinge System**. Specifically engineered for **medium-weight cabinet doors** ranging from approximately **3.5 kg to 6.5 kg**, the Pacta redefines functionality and style in modern furniture design. This innovative mechanism transforms a traditional hinged door into an **elegant, upward-opening flap door** with a smooth, controlled motion.

Key Features & Benefits:

- **Soft Opening Action:** Experience effortless operation. The integrated dampening system ensures a **smooth, gentle, and controlled upward movement**, preventing sudden acceleration or slamming.
- **Ideal for Medium Doors:** Perfectly calibrated for doors in the **3.5kg to 6.5kg weight range**, offering a balanced and reliable lifting force.
- **Minimalist & Aesthetic Design:** Say goodbye to bulky pistons, cables, and arms. The Pacta system is **compactly integrated** into the cabinet side, providing a clean, **uninterrupted internal space** and maintaining the cabinet's sleek aesthetic.
- **Easy Installation:** Designed for simple, **hassle-free mounting** with minimal routing required. **Quick and precise adjustment** allows for perfect door alignment.
- **Full Accessibility:** The upward-opening flap door provides **unrestricted access** to the cabinet's contents, making it a practical choice for kitchen overhead

units, living room storage, and bathroom vanity tops.

- **Durable & Reliable:** Crafted from **high-quality Salice components**, ensuring **long-lasting performance** and continuous, reliable opening cycles.
