

Salice Pacta – Soft Opening – Medium Doors approx 3.5 to 6.5kg

Variant code: FRBKFEXISN9

The **Salice Pacta Soft Opening Hinge System** is an innovative drop flap hinge solution designed for **medium-weight cabinet doors between approximately 3.5kg and 6.5kg**. Engineered by Salice, the Pacta system transforms conventional hinged doors into elegant upward-opening flap doors, delivering smooth, controlled movement while maintaining a clean and contemporary furniture design.

Featuring an integrated **soft opening mechanism**, the hinge provides effortless lifting with controlled motion, helping to prevent sudden acceleration and creating a premium user experience. Unlike traditional flap stay systems that rely on visible pistons or support arms, the compact Pacta mechanism is discreetly integrated into the cabinet side, preserving valuable internal storage space and maintaining a minimalist appearance.

Ideal for modern kitchens, living room furniture, bathroom cabinetry and bespoke joinery, the Salice Pacta Soft Opening Hinge System combines refined aesthetics with reliable long-term performance, making it an excellent choice for premium furniture applications.

Product Features

- Genuine Salice Pacta soft opening hinge system
- Designed for medium-weight doors from approximately 3.5kg to 6.5kg
- Transforms hinged doors into upward-opening flap doors
- Integrated soft opening mechanism for smooth, controlled operation
- Compact design concealed within the cabinet side
- No external pistons, cables or support arms required
- Simple installation with minimal routing
- Adjustable for accurate door alignment
- Manufactured from premium Salice components

Product Benefits

- Provides smooth, controlled soft opening for effortless flap door operation
- Optimised lifting performance for medium-weight doors between 3.5kg and 6.5kg
- Creates a clean, minimalist cabinet interior without bulky support mechanisms
- Offers unrestricted access to cabinet contents when fully opened
- Quick installation and straightforward adjustment reduce fitting time
- Helps improve user comfort while enhancing premium furniture aesthetics
- Suitable for both residential and commercial furniture projects
- Manufactured by Salice for dependable long-term durability and performance

Technical Characteristics

- Product Type: Soft Opening Drop Flap Hinge System
- Brand: Salice
- Series: Pacta
- Door Weight Capacity: Approximately 3.5kg to 6.5kg
- Opening Direction: Upward Opening Flap Door
