

Salice Wind Lift System – Power Rating W – Soft Close Set

Variant code: FRAKFEXWSN9

The **Salice Wind Lift System – Power Rating W – Soft Close Set** is a premium lift-up door mechanism designed to deliver effortless opening and controlled soft closing for modern overhead cabinets. Engineered for contemporary furniture, the Wind system allows cabinet doors to glide smoothly upwards and remain securely positioned at any desired opening angle, providing unrestricted access while maintaining a sleek, minimalist appearance.

Featuring an integrated **soft-close mechanism**, the system ensures every closing movement is gentle, quiet and controlled, helping to protect cabinet doors and hardware from unnecessary impact and wear. The **Power Rating W** configuration is optimised for a range of compatible door sizes and weights, providing balanced lifting performance and dependable everyday operation.

Designed with Salice's renowned Italian engineering, the Wind Lift System combines compact dimensions, durable construction and precision performance, making it an ideal solution for premium kitchens, living spaces, offices and bespoke cabinetry.

Product Features

- Genuine Salice Wind Lift System
- Power Rating W configuration
- Integrated soft-close mechanism
- Smooth upward-opening lift system
- Door remains open in the desired position
- Compact, concealed design
- Quiet, controlled closing action
- Durable precision-engineered construction
- Suitable for a range of compatible door sizes and weights
- Designed for modern lift-up cabinet applications

Product Benefits

- Provides effortless upward opening with smooth, controlled movement
- Integrated soft-close technology delivers quiet, gentle closing while reducing wear on cabinetry
- Power Rating W offers reliable lifting performance for compatible cabinet doors
- Allows doors to remain securely open for convenient access to cabinet contents
- Compact concealed mechanism preserves clean, contemporary furniture aesthetics
- Helps improve safety by preventing sudden door closure
- Suitable for both residential and commercial furniture applications
- Manufactured by Salice for dependable long-term reliability and performance

Technical Characteristics

- Product Type: Lift-Up Door System
- Brand: Salice
- Series: Wind
- Power Rating: W
- Opening Action: Upward Lift
- Closing Mechanism: Integrated Soft Close
- Door Positioning: Holds Door Open at the Desired Position
- Installation: Cabinet Mounted
- Application: Lift-Up Cabinet Doors

Applications

The **Salice Wind Lift System – Power Rating W – Soft Close Set** is ideal for **kitchen wall cabinets, living room storage, display units, office furniture, utility rooms, bathroom cabinets and bespoke joinery**. Its smooth lift-up operation and integrated soft-close technology provide convenient access, quiet performance and premium functionality for contemporary residential and commercial furniture installations.
