

Blum Aventos Servo-drive Combox for Corner Situations

Variant code: Z10ZC00A

Transform your hard-to-reach corner cabinets into effortlessly accessible storage with the Blum SERVO-DRIVE COMBOX, designed specifically for corner applications. Say goodbye to awkward bending and reaching, and hello to seamless, touch-activated opening and closing.

Unlock the Power of Effortless Access:

The Blum SERVO-DRIVE COMBOX brings the revolutionary convenience of electric motion support to your corner cabinets. With a gentle touch of the handleless front, the door smoothly glides open, revealing the full contents of your storage space. This intelligent system eliminates the need for cumbersome manual operation, making it ideal for those with limited mobility or anyone seeking a truly modern kitchen experience.

Optimised for Corner Cabinet Efficiency:

Designed with the unique challenges of corner cabinets in mind, the SERVO-DRIVE COMBOX ensures reliable and consistent performance, even in tight spaces. Its compact design integrates seamlessly with your existing cabinet layout, maximising storage utilisation without compromising functionality.

Key Features & Benefits:

- **Touch-Activated Opening:** Experience hands-free convenience with a simple touch.
- **Effortless Closing:** Gentle, soft-close mechanism ensures quiet and controlled closure.
- **Specifically Designed for Corner Cabinets:** Optimizes functionality in challenging corner spaces.
