

## Blum Tandem Runner – Full Extension plus BLUMOTION (17 – 19mm Drawer Sides) – 30KG – 550mm

Variant code: 560F5500B

**Blum TANDEM Runner – Full Extension plus BLUMOTION (17–19mm Drawer Sides) – 30kg – 550mm** is engineered to provide smooth, reliable and controlled drawer movement in high-quality cabinetry. Manufactured by **Blum**, a globally recognised leader in precision cabinet hardware, the TANDEM runner system combines concealed runner technology with **integrated BLUMOTION soft-close functionality**, ensuring quiet and consistent drawer operation in modern cabinet installations.

The runner provides **full extension**, allowing drawers to open completely so the entire drawer interior remains accessible. This improves usability by enabling easy access to stored items, particularly in deep drawers or cabinets used for kitchen storage. The integrated **BLUMOTION soft-closing mechanism** ensures drawers close smoothly and quietly, helping to reduce closing impact and protect cabinet structures from wear over time.

Designed specifically for drawers with **17–19mm drawer side thickness**, the TANDEM runner mounts beneath the drawer to create a **fully concealed installation**. This hidden mounting design preserves the clean interior appearance of cabinetry while delivering excellent running performance. Precision engineering ensures stable and consistent drawer movement while supporting loads of up to **30kg**, making it suitable for frequently used drawers in kitchens, bedrooms and storage furniture.

Manufactured with a durable **Nickel finish**, the runner integrates seamlessly with Blum drawer systems and accessories, maintaining compatibility across the Blum cabinet hardware platform. With a **550mm nominal length**, this runner is suitable for deeper cabinet constructions where extended drawer depth is required while maintaining the same smooth running performance and installation reliability.

---

### Product Features

- **Full extension concealed drawer runner**
- Integrated **BLUMOTION soft-close technology**
- Designed for **17–19mm drawer side thickness**
- **30kg load capacity** for everyday drawer applications
- **550mm nominal runner length** for deeper cabinet installations
- Durable **Nickel finish** for long-term performance

---

## Product Benefits

- Provides **full access to drawer contents** with complete extension
- Ensures **quiet and controlled closing** with BLUMOTION technology
- Reduces **impact and wear on cabinet structures**
- Maintains a **clean cabinet interior appearance** with concealed runners
- Supports **smooth and stable drawer movement** during daily use
- Ideal for **deeper drawers and larger cabinet storage**

---

## Technical Characteristics

- Designed for **drawers with 17–19mm side thickness**
- **Concealed under-drawer runner installation**
- Compatible with **Blum TANDEM drawer systems**
- Integrated **BLUMOTION soft-close mechanism**
- Supports **30kg dynamic load capacity**

- **Nominal runner length: 550mm**

---

## Applications

This concealed runner system is widely used in **kitchen drawers, bedroom furniture, office storage and fitted cabinetry** where smooth and controlled drawer movement is essential. The full extension design allows complete access to stored items, making it particularly suitable for **deep kitchen drawers, pantry storage and frequently used cabinet compartments**. With integrated BLUMOTION soft-close technology and concealed installation, it is commonly specified in **residential and light commercial joinery projects** requiring reliable performance, quiet operation and a refined cabinet finish.

Property	Value
Weight Capacity (kg)	30
Nominal Length (mm)	550
Pull-out Type	Full Extension
Assembly Type	Side mounted
Minimal Internal Cabinet Depth (mm)	553
