

Veosys Stainless Steel Hinge -105° Soft Close -14 – 22mm Door Thickness – Full Overlay

Variant code: 9289590

Veosys 105° Stainless Steel Hinge – Overlay, Screw-On (Drilling Pattern 52 x 5.5 mm)

Experience superior performance and lasting durability with the Veosys 105° stainless steel hinge. Designed for full overlay applications, this premium hinge combines robust construction with smooth, reliable functionality, making it the ideal choice for high-quality cabinetry, kitchen doors, bathroom vanities, and furniture projects.

Unmatched Corrosion Resistance for Demanding Environments: Crafted from high-grade **stainless steel (INOX)**, the Veosys 105° hinge offers exceptional resistance to rust, corrosion, and moisture. This makes it perfectly suited for challenging environments such as kitchens, bathrooms, outdoor cabinetry, marine applications, and medical facilities where hygiene and longevity are paramount. Say goodbye to unsightly rust stains and enjoy years of flawless operation, even in humid or damp conditions.

Key Features & Benefits:

- **105° Opening Angle:** Provides ample access to cabinet interiors, ensuring comfortable and convenient use of your furniture.
- **Full Overlay Application:** Specifically designed for doors that completely cover the cabinet frame, creating a clean, seamless aesthetic.
- **High-Quality Stainless Steel (INOX):** Guarantees superior corrosion resistance, durability, and a long lifespan. Perfect for moisture-prone areas.
- **TH – Tool-Free Removal:** (Assuming "TH" refers to tool-free removal or mounting, which is common for quality hinges. If "TH" means something else, please specify!) Allows for quick and easy door removal and reinstallation without the need for tools, simplifying installation, adjustments, and cleaning.
- **Screw-On Installation:** Ensures a secure

and stable attachment to your cabinet doors and frames.

- **Standardized Drilling Pattern (52 x 5.5 mm):** Facilitates straightforward and precise installation. This widely recognized drilling pattern simplifies replacement or new builds.
- **Robust & Reliable:** Engineered for heavy-duty use, providing consistent and smooth door movement over countless cycles.
- **Versatile Applications:** Ideal for kitchen cabinets, bathroom cabinets, furniture doors, marine furniture, outdoor kitchens, medical storage, and any application requiring a resilient, corrosion-resistant hinge.

Technical Specifications:

- **Hinge Type:** Overlay Hinge
- **Opening Angle:** 105°
- **Material:** Stainless Steel (INOX)
- **Mounting Type:** Screw-On
- **Drilling Pattern:** 52 x 5.5 mm (Cup drilling)
- **Drilling Depth:** (Typically 11.5mm – 12.5mm for 35mm cup hinges, confirm if known)
- **Arm Type:** (Often straight or cranked, specify if known)
- **Compatibility:** Designed for standard 35mm hinge cups

Why Choose the Veosys 105° Stainless Steel Hinge? When you demand performance, longevity, and aesthetics, the Veosys 105° stainless steel hinge delivers. Its premium construction ensures it stands up to the rigors of daily use and harsh environments, providing a reliable and attractive solution for your furniture and cabinetry needs. Invest in quality that lasts.
