Variant code: 785401-85

Wesco Traditionline Bio-Trio 40DM – 40L – Alu Grey: Sustainable Waste Management, Stylishly Reimagined

Elevate your kitchen's efficiency and environmental commitment with the Wesco Traditionline Bio-Trio 40DM in elegant Alu Grey. This premium 40-liter waste separation system is ingeniously designed to make recycling effortless and discreet, blending seamlessly into any modern or traditional kitchen aesthetic.

Key Features & Benefits for a Greener Home:

- **Optimised Waste Separation (Bio-Trio System):** Featuring three dedicated compartments (1 x 20L and 2 x 10L), the Bio-Trio 40DM empowers you to meticulously separate your waste, from organic food scraps to plastics and paper. This intelligent design promotes responsible recycling habits and significantly reduces your environmental footprint.
- **Generous 40-Liter Capacity:** With ample space across its three bins, this Wesco recycling solution is perfect for busy households, minimising the frequency of emptying and maximising convenience.
- **Premium Quality & Durability (German Engineering):** Crafted with Wesco's renowned commitment to excellence, the Traditionline Bio-Trio boasts robust construction and high-quality materials, ensuring years of reliable performance. Experience the superior craftsmanship of a product designed to last.
- **Sleek Alu Grey Finish:** The sophisticated Alu Grey hue is not just visually appealing but also highly practical. Its neutral tone

complements a wide range of kitchen decors, adding a touch of contemporary elegance while concealing everyday smudges and marks.

- **Integrated Soft-Close Runner System (4ODM – Door Mounted):** Experience whisper-quiet operation and effortless accessibility. The integrated soft-close runners ensure smooth, silent opening and closing, preventing jarring noises and wear. Designed for easy door-mounted installation, it keeps your waste concealed and your floor space clear.
- **Easy to Clean & Maintain:** Each inner bin is removable, making emptying and cleaning a breeze. The smooth surfaces wipe down effortlessly, ensuring optimal hygiene and a consistently fresh-looking kitchen.
- **Space-Saving Design:** Its clever in-cabinet design keeps your waste bins neatly hidden away, freeing up valuable floor space and maintaining a clutter-free kitchen environment. Ideal for compact living or those who prefer a minimalist aesthetic.
- **Effortless Installation:** The 4ODM (door-mounted) system comes with clear instructions for straightforward installation within your kitchen cabinet, allowing you to quickly integrate this essential recycling solution into your home.

Why Choose the Wesco Traditionline Bio-Trio 4ODM?

Investing in the Wesco Traditionline Bio-Trio 4ODM is a commitment to a cleaner, more organised, and more sustainable lifestyle. This isn't just a waste bin; it's an elegant and efficient system that streamlines your daily routine while actively contributing to environmental preservation. Its blend of superior German engineering, stylish design, and practical functionality makes it the **ultimate waste management solution** for the modern eco-conscious homeowner.
