Piano Hinge 1829 x 38mm - Nickel Plated

Variant code: PH003NP

Introducing the superb quality **1829mm Nickel Plated Piano Hinge**, the ideal solution for projects demanding a long, continuous, and robust hinge mechanism. Also known as a **Continuous Hinge**, this product is engineered for exceptional durability and smooth, full-length articulation, making it perfect for cabinet doors, fold-down tables, storage box lids, and a wide array of woodworking and DIY applications. The generous **1829mm (6-foot)** length ensures complete, uniform support across the entire join, distributing weight and stress evenly to prevent warping and sagging, resulting in a significantly longer lifespan for your furniture or fittings. Crafted from high-grade materials and finished with an attractive **nickel plating**, this hinge not only offers superior strength but also provides excellent resistance to corrosion and wear, maintaining a clean, professional aesthetic for years.

This **Nickel Plated Continuous Hinge** is a must-have component for professionals and enthusiasts seeking **reliable cabinet hardware** and **heavy-duty hinges**. The narrow **38mm width** ensures a compact profile while maintaining critical structural integrity. Its design facilitates a full range of motion, offering silent and effortless operation—a key feature for **quality furniture construction** and **bespoke cabinetry**. Installation is straightforward, allowing you to quickly secure this hinge to wood, metal, or plastic substrates. Whether you are undertaking a large commercial fit-out or a simple home **improvement project**, choosing this **extra-long continuous hinge** guarantees a secure, seamless, and **professional finish**. Enhance the functionality and longevity of your creations with this premium, **versatile piano hinge**.
