

Premium Round Solid Brass Wardrobe Rail – 25mm Diameter Ø – Polished Nickel (Price Per Metre)

Variant code: BRR2500PN

PREMIUM Solid Brass Tube – 25mm Dia Ø – Venetian Brass (Priced Per Metre)

Elevate your projects with our exquisite **PREMIUM Solid Brass Tube**, featuring a sophisticated 25mm diameter and a luxurious **Venetian Brass** finish. Crafted from high-quality, solid brass, this tubing offers unparalleled durability, aesthetic appeal, and versatility for a wide range of applications. Sold conveniently per metre, you can easily order the precise length you need, minimising waste and maximising efficiency.

Unmatched Quality & Durability: Our solid brass tubing is not merely decorative; it's engineered for longevity. Unlike hollow alternatives, its solid construction provides superior strength and resistance to bending, denting, and corrosion, ensuring your creations stand the test of time. The inherent properties of brass, including its antimicrobial nature and resistance to tarnishing (especially with the Venetian finish), make it a practical and hygienic choice for various environments.

Elegant Venetian Brass Finish: The distinctive Venetian Brass finish offers a warm, aged, and classic aesthetic that adds a touch of timeless elegance to any design. This unique surface treatment provides a richer, more nuanced appearance than standard polished brass, making it ideal for projects where character and sophistication are paramount. Whether you're aiming for a vintage, traditional, or even a subtly industrial look, this finish will complement your vision perfectly.

Versatile Applications: This 25mm diameter solid brass tube is incredibly versatile, making it a favourite among DIY enthusiasts, professional craftsmen, and designers alike. Its robust nature and elegant finish make it suitable for:

- **Architectural & Interior Design:** Create stunning handrails, balustrades, curtain

rods, decorative screens, and shelving supports.

- **Furniture Making:** Craft bespoke furniture pieces, table legs, chair frames, or decorative accents that exude luxury.
- **Lighting Fixtures:** Construct unique and high-end lamps, chandeliers, or sconces with a classic touch.
- **Plumbing & Sanitaryware (Decorative):** While not typically used for functional plumbing, it can be utilised for decorative pipework or towel rails in high-end bathrooms.
- **Art & Sculptural Projects:** Its workability and aesthetic appeal make it an excellent material for artistic creations.
- **Restoration Projects:** Perfect for restoring antique furniture, fixtures, or architectural elements to their former glory.
- **Marine Applications:** Brass's corrosion resistance makes it suitable for certain decorative or non-structural marine uses.

Key Features & Benefits:

- **PREMIUM Quality Solid Brass:** Ensures maximum strength, durability, and a substantial feel.
- **25mm Diameter (Ø):** A popular and versatile size for various applications.
- **Luxurious Venetian Brass Finish:** Offers a unique, aged, and sophisticated aesthetic.
- **Corrosion Resistant:** Ideal for long-lasting indoor and suitable outdoor use.
- **Antimicrobial Properties:** A natural benefit of brass, making it suitable for high-touch areas.
- **Easy to Work With:** Can be cut, drilled, polished, and joined using standard metalworking tools.
- **Priced Per Metre:** Ring in to order the exact length you need, reducing waste and cost.
