Blum Legrabox Runners - Full Extension Tip-on BLUMOTION - 40kg - Left & Right Hand 270mm

Variant code: 750.2701SV1

Blum LEGRABOX Runner - Full Extension TIP-ON BLUMOTION 40kg is engineered to deliver **synchronised smooth running**, **push-to-open convenience** and **soft-close performance** within a single integrated system. As part of Blum's premium LEGRABOX drawer platform, this runner combines **TIP-ON mechanical opening** with **BLUMOTION soft-close damping**, enabling handle-less drawer designs without compromising on closing comfort.

Designed for full extension operation, the runner provides **complete access to drawer contents**, improving usability and visibility in both residential and commercial applications. The integrated synchronised runner system ensures **consistent and stable movement**, even under load, while maintaining smooth and controlled operation throughout the opening and closing cycle.

With a **40kg load capacity**, this runner is suitable for a wide range of drawer sizes and applications. It supports precise alignment through Blum's adjustment mechanisms, enabling installers to achieve **consistent reveals and accurate drawer positioning**. Available in multiple **nominal lengths** and **finish/colour options**, it can be specified to suit different cabinet dimensions and design requirements.

Product Features

- **Full extension runner system** for complete drawer access
- Integrated **TIP-ON push-to-open mechanism**
- Built-in **BLUMOTION soft-close technology**
- **40kg load capacity** for standard drawer applications
- **Synchronised runner movement** for smooth operation
- Available in multiple **nominal lengths**

Product Benefits

SWS HARDWARE
Tel: 01626 333900
Email: info@swshardware.com

- Enables **handle-less drawer designs** with push-to-open functionality
- Provides **smooth, controlled and quiet closing**
- Improves accessibility to drawer contents
- Maintains **stable and consistent drawer movement**
- Supports **precise alignment and professional installation results**
- Suitable for both **residential and commercial cabinetry**

Technical Characteristics

- Compatible with **Blum LEGRABOX drawer systems**
- Combines **TIP-ON and BLUMOTION** in one mechanism
- Designed for **full extension drawer applications**
- Supports synchronised runner operation for stability
- Available in multiple nominal lengths for different cabinet sizes
- Requires correct system components for optimal performance

Applications

This runner system is suitable for **kitchen cabinetry, wardrobes, storage units and fitted furniture** where handle-less design and smooth drawer operation are required. It is particularly effective in modern interiors where **push-to-open functionality** and **soft-close performance** are essential. The availability of different **nominal lengths and finish options** allows it to be specified across a wide range of drawer sizes and design schemes, from residential kitchens to commercial fit-outs.

Property	Value
Finish	Zinc
Boss	Screw-on
Weight (kg)	40
Nominal Length (mm)	270
