

Profiles and Heat Sink Adhesive Tape 10mm x 33m

Variant code: LLP02600

Profiles and Heat Sink Adhesive Tape 10mm x 33m

High-Performance Heat Sink Adhesive Tape for Optimal Cooling

This premium 10mm x 33m heat sink adhesive tape is designed for efficient heat dissipation in a wide range of applications. It provides strong, reliable adhesion to various surfaces, ensuring secure and long-lasting thermal contact between components.

Key Features:

Excellent Thermal Conductivity: Effectively transfers heat away from heat-generating components, minimising overheating and maximizing performance.

High-Strength Adhesive: Provides a strong and durable bond, ensuring reliable and long-term performance.

Easy to Apply: Clean release liner allows for quick and easy application, minimizing installation time.

Versatile Applications: Suitable for a wide range of applications, including:

- Cooling electronics (CPUs, GPUs, etc.)
- Heat sinks for power electronics
- Industrial applications
- Automotive applications

Dimensions: 10mm x 33m

Improve the cooling efficiency of your devices with this high-quality heat sink adhesive tape.
